UNEASY STREET

THE ANXIETIES OF AFFLUENCE

Narrated by Liza Thompson

Uneasy Street

Brendan G. Carr

Uneasy Street:

Uneasy Street Rachel Sherman,2019-05-14 A surprising and revealing look at how today s elite view their wealth and place in society From TV s real housewives to The Wolf of Wall Street our popular culture portrays the wealthy as materialistic and entitled But what do we really know about those who live on easy street In this penetrating book Rachel Sherman draws on rare in depth interviews that she conducted with fifty affluent New Yorkers from hedge fund financiers and artists to stay at home mothers to examine their lifestyle choices and understanding of privilege Sherman upends images of wealthy people as invested only in accruing social advantages for themselves and their children Instead these liberal elites who believe in diversity and meritocracy feel conflicted about their position in a highly unequal society As the distance between rich and poor widens Uneasy Street not only explores the lives of those at the top but also sheds light on how extreme inequality comes to seem ordinary and acceptable to the rest of us **Uneasy Street** Roche Arthur

realm of international relations there are seemingly few states like North Korea Whether it is the country s human rights situation its precarious everyday life or its so called foreign policy of coercion and nuclear brinkmanship no matter what this pariah nation says and does it affects the state and stability of regional and global politics But what do we know about North Korea and how do we come to know it This book argues that visual imagery plays a decisive role in this operation By discussing two exemplary areas everyday photography and satellite imagery the book takes into account the role of images in the way that particular issues related to North Korea are understood in contemporary geopolitics Images work They do something by evoking a particular perspective of what is shown in them allowing only specific ways of seeing and knowing In this sense images are deeply political Individual methodological usages in the book can provide a procedural basis from which to start or rethink further studies on visibility both in IR and beyond It also opens an innovative path for future studies on East Asia making the book attractive to a range of specialists and thus holding an appeal beyond the boundaries of a
