

A man and a woman are shown in a close embrace. The man is on the left, leaning towards the woman on the right. The lighting is dim and moody, with a blueish tint. The woman's hair is long and dark. The man's face is partially visible, showing a beard and closed eyes. The overall mood is intimate and romantic.

## **When Doctors Love:**

*When Doctors Love* Bloom, Ursula, 1969      *When Doctors Become Patients* Robert Klitzman, 2007-11-30 This is the first systematic look at the phenomenon of wounded healers doctors who fall ill and become patients The psychiatrist Robert Klitzman here weaves together gripping first person accounts of the experience of doctors who fall ill and see the other side of the coin as a patient The accounts reveal how dramatic this transformation can be a spiritual journey for some a radical change of identity for others and for some a new way of looking at the risks and benefits of treatment options For most however it forever changes the way they treat their own patients These questions are important not just on a human interest level but for what they teach us about medicine in America today While medical technology advances the health care system itself has become more complex and frustrating and physician patient trust is at an all time low The experiences offered here are a unique resource that point the way to a more humane future      *When Doctors Love* Brenda Jackson, Penguin Books Staff, Ronald L McDonald, 1973-05-15      **The Doctor's Love-Child** Barbara Hart, 2017-01-21 Her secret he s a father After a whirlwind romance in New York Dr Helen Blackburn is pregnant with orthopedic surgeon Andrew Henderson s child Only Andrew has left the city to go to Chicago for some months on urgent private business and can t be contacted so Helen has to manage alone A year later Helen is back in England with her life sorted out She has a beautiful baby son and a part time job at a local hospital Then out of the blue Andrew arrives to start at the same hospital where Helen knows he ll discover her secret his child      *When Doctors Love* Sheila Burns, Ursula Bloom, 1987      **Doctor Josephine: a Love Story of Profit-sharing** Willis Barnes, 1901      **Love's Diplomacy** Maurice Hageman, Frank A. Small, 1903      *The Doctor's Recreation Series* Charles Wells Moulton, 1904      *The Poetics of Philosophy [A Reading of Plato]* David Ross, 2008-12-18 The Poetics of Philosophy is my attempt to hear what academic philosophy attempts to silence namely how reason resonates with madness It is thus a stinging of the great steed of academia in order to recover and re experience what otherwise would be repressed by the exigencies of bureaucratic commodity life in the late capitalist world An analysis of Plato s principal dialogues with a view towards developing the author s conception of thinking knowing and loving it incorporates the insights of Heidegger Nietzsche and Derrida Provoking the world mind to reflect upon its phenomenological possibility for Being dispersed within its daily routines or business the book argues for the metaphysicality of physical reality articulated through the narrative trope of fractal dialectical logic The present volume s more general implications extend the insights of the author s previous work in the area of social science I refer to the possibility for world communist revolution which is predicated on communism s thorough ridding itself of its naive materialist perspective the relics of a Newtonian Universe and its embracing of a fractal dialectical logic or similar that is better able to incorporate the yearning for immortality desire to experience beauty and the need to have a meaningful life that define human species life To articulate such a framework is the aim of my general research      **Medical Catastrophe** Ronald W. Dworkin, 2017-03-17 Unnecessary death rarely happens

at the hands of doctors but it does happen Sometimes the cause is medical error But sometimes the cause is politics The issues underlying many medical catastrophes are numerous a power struggle between providers uncertainty over who s in charge hesitation to practice good medicine for fear of being fired specialization run amok part time doctoring Doctors often prefer to ignore the problems but patient safety demands that they be aired And so does the future of the medical profession Beneath the politics lies confusion Doctors no longer know who they are They don t know how much authority they should wield They don t know what distinguishes them from other healthcare professionals They don t what about being a doctor should make them proud When doctors lack a firm sense of who they are the whole of medicine lacks an essential core giving rise to personal and professional politics and catastrophes Patients may be relying on a system that has veered off course In dramatic and revealing stories of patients in the operating room and interactions with colleagues Ronald W Dworkin traces his path from medical school to anesthesiology residency to his early years in private practice with the experiences of his father and grandfather also doctors hovering overhead in his quest to answer the question What is a Doctor Sometimes funny sometimes scary sometimes poignant the story of what it means to be a doctor in today s medical setting comes to life as Dworkin outlines the contours the challenges and rewards of modern medicine and how it must be rescued in order to preserve the profession and protect patients from disasters
