Reynolds,1961 Collection of experiments each devoted to the work of one kind of scientist that can be done at home

Experiment, Theory, Practice P.L. Kapitza,2012-12-06 In this splendid collection of the articles and addresses of P L Kapitza the author remarks on the insight of the 18th century Ukrainian philosopher Skovoroda who wrote We must be grateful to God that He created the world in such a way that everytbing simple is true and everything compli cated is untrue At another place Kapitza meditates on the roles played by instinct imagination audacity experiment and hard work in the develop ment of science and for a moment seems to despair at understanding the dogged arguments of great scientists Einstein loved to refer to God when there was no more sensible argument With Academician Kapitza there are reasoned arguments plausible alter natives humor and humane discipline energy and patience a skill for the practical and transcendent clarity about what is at issue in theoretical practice as in engineering necessities Kapitza has been physicist engineer research manager teacher humanist and this book demonstrates that he is a wise interpreter of historical philosophical and

social realities He is also in C P Snow s words strong brave and good Variety of Men N Y 1966 p 19 In this preface we shall point to themes from Kapitza s interpretations of science and life On scientific work Good work is never done with someone else s hands The separation of theory from experience from experimental work and from practice above all harms theory itself
