**Narrative Generation** Ann Badillo, Tim Donovan, Tobin Trevarthen, 2016-09-28 In a world where story has become everything organizations are finding it increasingly hard to compete That s because stories can only take you so far The real power lies in narratives We are surrounded by noise We are overwhelmed by information from social media news and advertising In this environment it can be impossible for a brand cause or individual to be heard Organizations have traditionally used stories to try and connect with their audiences But now stories aren t enough To be heard and to authentically connect to an audience organizations need to embrace narrative So what do we mean when we talk about narrative In this book the reader will learn what narrative is and why it is important They will learn the conditions that give rise to a narrative They will get a sense of the basic roles of the participants in the dance of narrative We call them narrative Initiators and Respondents They will also learn about the elements of the existing narratives they live with and are creating By defining narrative we help the reader see the narratives all around them We then lay out the building blocks of narrative so the reader can think about their own narrative Finally we provide simple worksheets to guide the narrative building process for organizations of any size Our hope is that by walking readers through the narrative building process they will be more empowered to connect with their audiences and create authentic lasting relationships
