The Actor as Playwright in Early Modern Drama Nora Johnson, 2009-07-30 Nora Johnson s study of actors who wrote plays in early modern England uncovers important links between performance and authorship The book traces the careers of Robert Armin Nathan Field Anthony Munday and Thomas Heywood actors who were powerfully interested in marketing themselves as authors and celebrities but

Johnson contends that authorship as they constructed it had little to do with modern ideas of control and ownership. Finally, the book repositions Shakespeare in relation to actors, considering Shakespeare's famous silence about his own work as one strategy among many available to writers for the stage. *The Actor as Playwright* provides an alternative to the debate between traditional and materialist readers of early modern dramatic authorship, arguing that both approaches are weakened by a reluctance to look outside the Shakespearean canon for evidence. *Actors and Actresses by Different Writers, Compiled from Various Magazines* E. T. Gilbert, 1913. *Engendering the Stage in the Age of Shakespeare and Beyond* Peter Cockett, Melinda Gough, 2025-10-17. *Engendering the Stage in the Age of Shakespeare and Beyond* centres dialogue between scholars, students, and professional theatre practitioners to rethink gender on the early modern stage and its resonance for casting, staging, and design in contemporary classical theatre. Its scope extends beyond the confines of Shakespeare's Globe and the myth of the all-male stage to explore the exciting possibilities of gendered performance evident on the stages of Europe and in the work of less famous playwrights. Women and queer and trans artists and artisans were central to the theatres of early modern Europe, and this book's collaborative exploration of this historical evidence opens exciting new avenues for theatrical production and research. It mobilizes shared insights by scholars and theatre practitioners who hold deep investments in gender equity in their respective workplaces and explores Two Spirit and trans histories typically excluded in both theatre history studies and present-day performance repertoires. *Engendering the Stage in the Age of Shakespeare and Beyond* offers provocations arising from a five-day Performance as Research (PaR) workshop at the Stratford Festival. Featuring guest artist and actor commentary, a poem, a zine, scholarly essays and reflections, and three specially commissioned visual art pieces, the book adapts to print form the open and exploratory spirit of the workshop itself, inviting readers to embrace the possibilities of trans-disciplinary, provisional knowledges and knowledge dissemination that are central to PaR methodologies. *Publications of the Modern Language Association of America* Modern Language Association of America, 1925. Vols for 1921-1969 include annual bibliography called 1921-1955 American bibliography, 1956-1963 Annual bibliography, 1964-1968 MLA international bibliography. **The Modern Actor** Michael Billington, 1973. The Contemporary Review, 1904. *Modern Music and Musicians for Vocalists: Opera: history and guide*, 1918.
