The Pantheon:

The Pantheon William Lloyd MacDonald, 2002 The Pantheon in Rome is one of the grand architectural statements of all ages This richly illustrated book isolates the reasons for its extraordinary impact on Western architecture discussing the Pantheon as a building in its time but also as a building for all time Mr MacDonald traces the history of the structure since its completion and examines its progeny domed rotundas with temple fronted porches built from the second century to the twentieth relating them to the original He analyzes the Pantheon's design and the details of its technology and construction and explores the meaning of the building on the basis of ancient texts formal symbolism and architectural analogy He sees the immense unobstructed interior with its disk of light that marks the sun's passage through the day as an architectural metaphor for the ecumenical pretensions of the Roman Empire Past discussions of the Pantheon have tended to center on design and structure These are but the starting point for Mr MacDonald who goes on to show why it ranks along with Cheops's pyramid the Parthenon Wren's churches Mansard's palaces as an architectural archetype

The Pantheon Tod A. Marder, Mark Wilson Jones, 2015-06-17 The Pantheon is one of the most important architectural monuments of all time Thought to have been built by Emperor Hadrian in approximately AD 125 on the site of an earlier Agrippan era monument it brilliantly displays the spatial pyrotechnics emblematic of Roman architecture and engineering The Pantheon gives an up to date account of recent research on the best preserved building in the corpus of ancient Roman architecture from the time of its construction to the twenty first century Each chapter addresses a specific fundamental issue or period pertaining to the building together the essays in this volume shed light on all aspects of the Pantheon's creation and establish the importance of the history of the building to an understanding of its ancient fabric and heritage its present state and its special role in the survival and evolution of ancient architecture in modern Rome
