The Past And Future People:

Temporal Asymmetries in Philosophy and Psychology Christoph Hoerl, Teresa McCormack, Alison Fernandes, 2022-02-24
Humans attitudes towards an event often vary depending on whether the event has already happened or has yet to take place The dread felt at the thought of a forthcoming exam turns into relief once it is over Recent research in psychology also shows that people value past events less than future ones such as offering less pay for work already carried out than for the same work to be carried out in the future This volume brings together philosophers and psychologists with a shared interest in such psychological past future asymmetries It asks questions such as What different kinds of psychological past future asymmetries are there and how are they related Under what conditions do humans exhibit them To what extent do they reflect features of time itself or particular beliefs people have about time Are they rational or at least rationally permissible or should we aspire to being temporally neutral What exactly does temporal neutrality consist of

The Past, Present and Future of the Negro Ali Soliman, 1926 *Thinking with Kierkegaard* Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity

Politics of Time Leszek Koczanowicz, 2008-08-01 What has really happened in Poland since the election of 2005 After such spectacular events as the practice of lustration and the questioning of solidarity with the European Union one has to ask what is the nature of this newly emerging society As with many of the recent developments in former communist countries that seem to be mysterious and irrational the situation and ensuing problems are complex and the answers neither trivial nor easy This book by the distinguished Polish philosopher addresses these complexities through the role of the communist past in post communist Poland It describes the events that led to the collapse of the Solidarity program and the growing influence of the nationalistic and religious parties in the government The author investigates the nature of social and political temporality and develops a theoretical framework that allows him to apply his conclusions not only to Poland but also to other formerly communist countries
