The Path Of Transformation:

The Sacred Paths Theodore M. Ludwig, 2001 For courses in Religions of the World History of Religions Comparative Religion and Introduction to Religious Studies in departments of Religion Religious Studies Theology and Philosophy Unique in approach this text combines an historical descriptive presentation of individual religions with a comparative thematic approach It begins with a discussion of the basic human questions and concerns relating to religion e g origin and identity ultimate reality human nature and the good life and then uses these essential concepts to help describe the beliefs practices and historical development of each religion As the work of a single scholar much of it based on original research this book offers a consistency and depth missing in many of the texts in this field

Physical Chemistry Horia Metiu, 2006-02-21 This is a new undergraduate textbook on physical chemistry by Horia Metiu published as four separate paperback volumes These four volumes on physical chemistry combine a clear and thorough presentation of the theoretical and mathematical aspects of the subject with examples and applications drawn from current industrial and academic research By using the computer to solve problems that include actual experimental data the author is able to cover the subject matter at a practical level The books closely integrate the theoretical chemistry being taught with industrial and laboratory practice This approach enables the student to compare theoretical projections with experimental results thereby providing a realistic grounding for future practicing chemists and engineers Each volume of Physical Chemistry includes Mathematica and Mathcad Workbooks on downloadable resources Metiu s four separate volumes Thermodynamics Statistical Mechanics Kinetics and Quantum Mechanics offer built in flexibility by allowing the subject to be covered in any order These textbooks can be used to teach physical chemistry without a computer but the experience is enriched substantially for those students who do learn how to read and write Mathematica or Mathcad programs A TI 89 scientific calculator can be used to solve most of the exercises and problems Mathematica is a registered trademark of Wolfram Research Inc Mathcad is a registered trademark of Mathsoft Engineering Education Inc

The Properties of Matter Basil Charles McEwen, 1923

Principles of Robot Motion Howie Choset, Kevin M. Lynch, Seth Hutchinson, George A. Kantor, Wolfram Burgard, 2005-05-20 A text that makes the mathematical underpinnings of robot motion accessible and relates low level details of implementation to high level algorithmic concepts Robot motion planning has become a major focus of robotics Research findings can be applied not only to robotics but to planning routes on circuit boards directing digital actors in computer graphics robot assisted surgery and medicine and in novel areas such as drug design and protein folding This text reflects the great advances that have taken place in the last ten years including sensor based planning probabilistic planning localization and mapping and motion planning for dynamic and nonholonomic systems Its presentation makes the mathematical underpinnings of robot motion accessible to students of computer science and engineering relating low level implementation details to high level algorithmic concepts
