The People Builder:

The Builder ,1875 **On Power** Nicholas J. Pappas,2019-05-01 Killing the Arab Spring tells the stories of the Arab Spring uprising in 15 Middle East states from the point of view of a secular Middle Eastern political analyst familiar with the politics the culture of the people and the history of the area Dr Hasan views the vast majority of the Arab rulers deriving their absolute authority from inheritance or military coups or in the case of the Saudis from conquest not at the pleasure of the governed Arab leaders do not believe that government is a trust on behalf of the people They believe that if there is democracy and their societies are composed of equal and competing individuals there will be a tendency towards anarchy People involved in the Arab Spring uprisings demanded inclusive and equitable democracy social justice and economic development There were no civil society institutions strong enough to challenge the weapons of authoritarianism that included ideology repression payoffs and the solidarity of the crony capitalists The author argues that Saddam Hussein s 1980 war on Iran was the spark that started a chain of bloody wars and events which eventually led to the US invasion of Iraq and the Arab Spring uprisings The revolts and the counter revolts took different forms in each country based on its history the type of government and the economy The author argues that the Arab Spring is a step of a long process toward democracy rather than an aberration between periods of authoritarian regimes To understand the Arab Spring causes and its aftermath the book provides the reader with a review of the Middle East common culture that includes the history of Islamic religion Islamic sects and Arab tribalism and brief history of each country There are few activities more controversial than writing history of a nation involved in a conflict Even while witnessing history unfolding in a country different historians provide different narratives different causes and different conclusions This becomes more obvious when the history of the conflicts is viewed through the prism of the politics of sectarianism ethnicity and tribalism The author strives for an objective view but he does not hide his strong support to liberal democracy and human rights **The People's Home Journal** ,1921
