Theme and variations Joseph Wolpe,1976 *Handbook of Clinical Behavior Therapy with Adults* Alan S. Bellack,Michel Hersen,2012-12-06 Despite the occasional outcries to the contrary the field of behavior therapy is still growing and the asymptote has not been reached yet The umbrella of behavior therapy continues to enlarge and still is able to encompass new theories new concepts new research new data and new clinical techniques Although the number of new behavioral journals now has stabilized we still see a proliferation of books on the subject In the past few years however we have seen considerable specialization within behavior therapy No longer is it possible to be a generalist and remain fully abreast of all the relevant developments Thus we see behavior therapists who deal with adults those who deal with children those whose specialty is hospital psychiatry and those who see themselves as practitioners of behavioral medicine Even within a subarea such as behavioral medicine specialization runs supreme to the extent that there are experts in the specific addictions adult medical problems and child medical problems Given the extent of specialization there are numerous ways to skin the proverbial cat We therefore have chosen to look at the contemporary work in behavior therapy that is being carried out with adults in part of course because of our long standing interest in this area as teachers researchers and clinicians In so doing we have chosen to highlight the clinical aspects of the endeavor but not at the expense of the rich research heritage for each of the specific adult disorders

Towards the Elimination of Racism Phyllis A. Katz,2013-10-22 Towards the

Elimination of Racism reviews the information gained from previous studies that tackle racist attitudes and examines the possible direction of future research that tackle racism. The main emphasis of the selection is on finding ways to change negative racial attitudes. The book first details the trends of research in racial prejudice and then proceeds to discussing the theories of prejudice acquisition and reduction. Next the title reviews several studies that deal with attitude and behavior change. In the last part the text tackles the role of various institutions in addressing the problem of racism. The book will be of great use to researchers and practitioners of behavioral science and its related disciplines such as sociology, anthropology, and philosophy.
