This Imagined Permanence:

This Imagined Permanence Nathalie Stephens, Nathanaël, 1996 What if is one of the constant themes in human life all the choices not made things not done lives not lived In This Imagined Permanence Stephens s second collection of poetry she traces the reflections of a lesbian preoccupied by the what ifs of existence Poet and voyeur philosopher and recluse the narrator contemplates the passions and desires of women who exist as she herself cannot Burdened by her decision to lead a life in the margins she attempts to make other women s lives her own A haunting investigation of the universal difficulty of reaching out entering forbidden territory living in a precarious world and a magnificent sequel to *hivernale* Stephens s first book of poems [Magic and the Mind](#) Eugene Subbotsky, 2010-03-31 In *Magic and the Mind* Eugene Subbotsky provides an overview of the mechanisms and development of magical thinking and beliefs throughout the life span while arguing that the role of this type of thought in human development should be reconsidered Rather than an impediment to scientific reasoning or a byproduct of cognitive development magical thinking serves important and necessary functions that are integral to social cognitive and psychological development *The Heart of Sri Shankara* Swami Satchidanandendra Saraswati , The most important book on Shankara s Advaita ever written by the pen of Swami Satchidanandendra Saraswati **Faith Through the Prism of Psychology** Eugene Subbotsky, 2021-12-28 *Faith Through the Prism of Psychology* introduces readers to the structure and function of the inherent ability of our Self to invest objects with reality existentialization EXON The author moves away from traditional ideas of existence and faith arguing that it is an inherent ability of an individual mind to invest entities both objective and subjective with reality The book treats faith as a psychological ability of the mind to upgrade the existential statuses of imaginary entities such as ghosts or gods the working of faith is operationalized and analyzed in empirical psychological studies It presents a new model of investing objects with existence with such structural elements as the belief in object permanence BOP magic ordinary distinguisher MOD magic trick distinguisher MTD imaginary perceived distinguisher IPD BOP defense mechanism BOP DM and realities distinguisher RD It will be essential reading for anyone interested in existence from psychology philosophy art theology or psychotherapy backgrounds *Sartre, Imagination and Dialectical Reason* Austin Hayden Smidt, 2019-06-28 There are perpetual debates about the extent of freedom in politics Are we free to choose Are we overdetermined by our material conditions Some hybrid between the two What is more how are we to comprehend ourselves as creators of history if freedom itself is a problematic concept And what would it mean if self comprehension were foreclosed by this problematic In this text Austin Hayden Smidt analyzes an oft overlooked text by Jean Paul Sartre in order to ground a logical framework for exploring this paradox In *Critique of Dialectical Reason* Sartre sought to develop an historical and structural heuristic one that would enable future theorists and activists alike to assess the pressing problems facing the various milieux of capitalist life Through this heuristic his intent was to develop an orientation enabling humans to transform their world in their perpetual creation of themselves and vice versa However the stylistic

difficulties of the text as well as a general agreement among previous interpreters has prevented the richness of the investigation from taking root This book sets a new course and invites further collaboration as together we create society as a work of art *Gleams of Truth* Said Nursi,2010 Written in prose but with a verse like flavor this book is a collection of maxims by Bediuzzaman Said Nursi Very concisely articulated these maxims expound on the key discussions of the Risale I Nur collection thus it is considered in a sense an index to the collection which was written years later than this book
