This Is Our China:

The China Reader David L. Shambaugh, 2016 The rise of China is the most significant development in world affairs in this generation No nation in history has risen as quickly or modernized as rapidly as has China over the four decades This sixth edition of The China Reader chronicles the diverse aspects of this transition since the late 1990s It is comprehensive in scope and draws upon both primary Chinese sources and secondary Western analyses written by the world's leading experts on contemporary China Perfectly suited as both a textbook for students as well as for specialists and the public alike the volume covers the full range of China's internal and external developments During the past three decades China dramatically modernized its economy and taken a position as one of the two major powers in the world Its mega economy has skyrocketed to being the second largest in the world and will soon surpass the United States on aggregate The physical transformation of the country has been extraordinary to witness with infrastructure development unparalleled in human history Modern cities featuring futuristic architecture have literally risen from farmland across the country As China has developed domestically it has also taken its place as a major power on the world stage Whether in its relations with other powers the United States Russia and European Union with its neighbors in Asia or other countries across the world China is now a major factor in international relations Its businesses are going global and its people are establishing their footprint from Antarctica to outer space For all its newfound prowess China's rise has not been a smooth process Domestically the nation's juggernaut economy has produced numerous negative social and environmental side effects Its political system remains anachronistic and authoritarian with substantial repression Externally Beijing's rapid military modernization and regional territorial claims have alarmed China's neighbors Its relationship with the United States is complex and increasingly strained And its soft power remains limited Still the rise of China is the story of the current era The China Reader is a perfect window into the complexities of this historic process The China Medical Journal, 1911 **The China Freedom Trap** Dolkun

Isa, 2023-10-31 From the president of The World Uyghur Congress a nominee by Canadian and Finnish parliamentarians for the Nobel Peace Prize 2023 Dolkun Isa was declared to be a terrorist by the Chinese Communist Party His crime Advocating for basic human civil and religious freedoms for the people of East Turkestan The country was taken over by the forces of the Chinese Communist Party in 1949 This was primarily achieved through persuasion as opposed to an armed invasion What the leaders signed up for and were promised are why seventy years later the Uyghur people have been the subject of international headlines Why have peaceful peoples been abused terrorized and systematically used for slave labour and even murdered in camps by the Chinese Communist Party In The China Freedom Trap Dolkun Isa details his experiences working as an Uyghur political figure in the West and the barriers he has faced due to China's growing influence on liberal institutions He describes his co-founding of the World Uyghur Congress and the ways in which China has attempted to disrupt and discredit Uyghur activism to further its agenda Through its Transnational repression and significant influence in INTERPOL China built a false

narrative about Mr Isa s work and life Declaring him a separatist and terrorist they convinced the agency to issue an INTERPOL Red Notice That shadowed Isa for 21 years and almost cost him his life as he narrowly escaped extradition to China During detention and deportation in democratic countries Isa also finds himself uncovering corruption and peeling back the layers of the liberal institutions to see China at its rotting core This book serves as a historical account of the political activities and behind the scenes diplomatic battles between China the Uyghurs and other interested or invested countries and institutions a personal history of Isa s struggle for the freedom of himself and his people and ultimately as a warning to other activists policymakers and interested parties China s power and influence run more profound than most can fathom they are growing and they cannot be ignored China's Millions ,1900 **The China Fallacy** Donald Gross,2012-11-08 After assessing the shortcomings of U S policy the book outlines measures that would lead to a stable peace and a new paradigm for U S China relations *The China Correspondence* Revolutionary Red Aid Society in China,1930 **The China Mission Year Book** ,1910 The China Weekly Review ,1930 *This Is Our China, By May-Ling Soong Chiannng (Madame Chiang Kai-Shek)*.
