### **This Thing Of Darkness Exp Only:**

**Dream, Death, and the Self** J. J. Valberg, 2018-06-26 Might this be a dream In this book distinguished philosopher J J Valberg approaches the familiar question about dream and reality by seeking to identify its subject matter what is it that would be the dream if this were a dream It turns out to be a subject matter that contains the whole of the world space and time but which like consciousness for Sartre is nothing in itself This subject matter the personal horizon lies at the heart of the main topics the first person the self and the self in time explored at length in the book The personal horizon is Valberg contends the subject matter whose center each of us occupies and which for each of us ceases with death This ceasing to be presents itself solipsistically not just as the end of everything for me but as the end of everything absolutely Yet since it is the same for everyone this cannot be Death thus confronts us with an impossible fact something that cannot be but will be The puzzle about death is one of several extraphilosophical puzzles about the self that Valberg discusses puzzles that can trouble everyday consciousness without any contribution from philosophy Nor can philosophy resolve the puzzles Its task is to get to the bottom of them and in this respect to understand ourselves a task philosophy has always set itself *How We Experience Modern Verse* Eric Purchase, 2023-03-31 Poetry moves us Sometimes a poem changes our life Then we analyze it as a cultural artifact with no special connection to us An extensive critical apparatus enables us to develop sophisticated interpretations but we dismiss as idiosyncratic even life changing experiences of poetry We need an apparatus to unfold our experience of reading poems into a more effective relationship with the world Modern poets in particular wrote prophetic verse for this purpose Archetypal psychology and phenomenology describe the soul that modern poetry moves in us Three prosodic mechanisms activate the psyche The polyphony of accentual and quantitative versification creates depth to lure the soul Aural images reshape the reader s stream of consciousness Readers follow the movement of blocks of verse across the expanse of the page with what Maurice Merleau Ponty terms the phenomenal body These mechanisms reach us at the collective level of consciousness and generate the power we need to solve big collective challenges such as race climate change and inequality

**Amazing Worlds of Higher Dimensions** Tadataka Kimura, 2025-11-21 The reality we see and hear every day the one we touch is called the world in the physical dimension or three dimensional world What remains unseen by our eyes the immaterial world is largely unknown to most people It comes as no surprise since just like over 90% of our consciousness is made up of the unconscious over 90% of the Universe is invisible to the human eye A vast portion of spiritual heritage and ancestral wisdom has been forgotten because it deals with the invisible the non scientific Still it is a tremendous loss That is why the author wrote this book to provide information about the world transcending the material in higher dimensions He guides through it a path that by considering new information perspectives and ideas embracing and putting them into practice allows us to recognize new issues and comprehend the vast world extending far beyond the enclosed realm of our consciousness

**All Things Spiritual** Phillip Eldridge Williams, 2022-01-12 This short quip referred

to in conversation and seen often in descriptive writing as well as various and sundry speeches is in reality on shaky ground when taken apart The truth has been the object of the search of man since he became serious with his ontology from earliest recorded history and finds its way in most academic institutions with each Latin phrase in its logo Matter has always been taken for granted but until recently 1939 with the declaration of the Physicists community in Copenhagen Denmark has acknowledged that indeed there is no final field theory for locating reality In this book I will attempt to speak to this lack of reality by delving into the state of being or lack thereof I will refer to as spirituality and the Native American priority given to the Great Spirit and the answer they give to one s ontology why one is here known as their vision quest We will investigate spirituality as that encounter we all must deal with in our religious medium for finding some sense of meaning and its answer to our need for respect I ll look at the Judeo Christian offering of the image of God and the spooky goings on at a distance stipulated by Albert Einstein as well as the implications of Galileo s insightful declaration in the 17th century that all meaning begins with experience spirituality and ends with experience that spirituality is all that there is and to offer proposals based upon purely logic alone is meaningless as regards reality Spirituality in the best sense of the word is your taking serious your honor as well as that of others This could be seen as the First and Greatest Commandment and the Second like unto it Thy neighbor as thyself This work is the culmination of 15 years of writing and a lifetime of seeking first the kingdom of God and his righteousness having all these things being added unto me Matthew 6 33 Now to have all these things added unto you is to be quickened with eyes to see and ears to hear things matter as they are and not from the might makes right syndrome or the what s in it for me modus operandi This quickening power is the mighty hand of God as opposed to the hand of God revealing the nature of truth God s righteousness as being no respecter of persons time place or thing and doing so unconditionally This is indeed the Final Field or the Truth of the Matter **God and Freedom in Human Experience**
