Thomas Bayrle Thomas Bayrle, 2009 Not only Mao before the masses but also dozens of housewives armed with brooms scores of Gillette razors and hundreds of Mon Cheri chocolates In a play on perceptions in which nothing or everything is what it seems in the midst of a profusion of food tins cleaning products cars reinforced concrete buildings and motorways that populate the works of Thomas Bayrle Berlin 1937 Acclaimed as one of the voices of Pop Art in Germany the truth is that Bayrle s ironic repetitive almost grotesque visual displays ultimately subvert the paradigms of the Pop movement His works are practically psychedelic maps constructed from mosaics of images and hallucinatory to a point far beyond pop s hypnotic and surface effects This book based on the first retrospective devoted to this artist of artists reproduces part of his work

Relations Christine Weder, 2024 Shows that engagement with art and literature was essential to the programmatic sexual theories of the late 1960s and early 70s and that the period s aesthetic theories were characterized by forms of sexual obsession In the period around and after 1968 sexuality and the arts entered into a remarkably intimate and mutually beneficial relationship on one hand scientific theories of sexuality and their pop psychological counterparts incorporated lengthy reflections on art movements and literary texts since artistic media were understood as crucial to the project of inventing radically new modes of human living and loving On the other hand the aesthetic ambitions that informed new conceptions of sexuality had their mirror image in the varying forms of sexual obsession that characterized contemporary aesthetic theories Approaches as diverse as those of Theodor W Adorno Roland Barthes Susan Sontag Leslie A Fiedler Peter Gorsen and Herbert and Ludwig Marcuse all contributed to a dramatic eroticization of the arts Christine Weder s interdisciplinary study explores this largely neglected relationship providing a dual insight into an era of profound transformation she demonstrates how and why the engagement with art and literature was essential to the programmatic theories of the new Eros At the same time she offers a fresh historical perspective on aesthetics around 1968 Whereas aesthetic developments in the late sixties have conventionally been conceived in terms of politicization Weder demonstrates that the sexualization of the arts was no less profound and in doing so contributes to a fundamental reframing of this tumultuous period **Frieze** , 2006 *Owens, Laura* Scott Rothkopf, 2017-01-01 A richly illustrated expansive mid career survey of the stand out American artist s pioneering and influential work with each copy featuring a unique silk screen cover printed in Owens s studio Since the early 1990s Laura Owens b 1970 has challenged traditional assumptions about figuration and abstraction in her pioneering approach to painting Created in close collaboration with the artist on the occasion of her

mid career survey at the Whitney Museum of American Art this inventive and comprehensive book features an incisive introduction by Scott Rothkopf critical essays literary texts and short commentaries on a variety of subjects related to Owens s broad interests which range from folk art and needlework to comics and wallpaper Reflections by more than twenty of Owens s fellow artists collaborators assistants dealers family members and friends offer an array of perspectives on her work at different periods in her life beginning with her high school years in Ohio and ending with her current exhibition A rich trove of more than a thousand images drawn from the artist s personal archive and largely unpublished before now includes personal correspondence journals academic transcripts handwritten notes source material exhibition announcements clippings and installation photographs Strikingly each copy also features a unique silk screen cover printed in Owens s studio giving readers the opportunity to own an original work of art Together all of these elements provide a rare and intimate look at how an artist might make her way in the world as well as how art gets made movements take hold and relationships evolve over time

Art Works Alistair Hicks,Mary Findlay,Friedhelm Hütte,2001 British and German artists from Gerhard Richter to Damien Hirst have helped to define the last forty years of art Starting with Zero and Pop and ending with Sensation artists and Ultra modernists *Art Works* offers a unique fully illustrated survey of contemporary art Drawn from one of the world s largest and most comprehensive collections of works on paper that of Deutsche Bank this book contains many pieces by famous artists such as Francis Bacon Georg Baselitz Sigmar Polke Joseph Beuys and R B Kitaj as well as by emerging artists such as Stepanek and Maslin and Susan Derges most of which have remained unpublished until now The 48 000 works on paper now owned by Deutsche Bank have been bought for the staff and not as investments The experience of working in a building with pieces by major contemporary artists is very different from perhaps more rewarding than a brief visit to a museum The purpose of the collection as well as offering a history of recent art is to introduce staff to the work of young artists and to emphasize that art can play an important part in a working environment Here for the first time the disparate parts of the collection are brought together in a single book With over 250 colour illustrations specially commissioned artists statements and a survey of the collection by art critic and curator Alistair Hicks *Art Works* paints a vivid picture of the art of our time
