## **Thomas Bewick Engraver:**

Thomas Bewick, Engraver on Wood. [From "Blackwood's Edinburgh Magazine", July 1825.]. Thomas Bewick, 1825

**Why Bewick Succeeded** Jacob Kainen, 2022-08-10 The following book goes into depth about Thomas Bewick's career as a wood engraver. Early in his career he took on all kinds of work such as engraving cutlery, making the wood blocks for advertisements and illustrating children's books. He gradually turned to illustrating writing and publishing his own books, gaining an adult audience for the fine illustrations in *A History of Quadrupeds*. His career began when he was apprenticed to engraver Ralph Beilby in Newcastle upon Tyne. He became a partner in the business and eventually took it over. Apprentices whom Bewick trained include John Anderson, Luke Clennell, and William Harvey, who in their turn became well known as painters and engravers. Bewick is best known for his *A History of British Birds*, which is admired today mainly for its wood engravings, especially the small, sharply observed and often humorous vignettes known as tail pieces. The book was the forerunner of all modern field guides. He notably illustrated editions of Aesop's Fables throughout his life. **Thomas Bewick, Wood Engraver** Thomas Bewick, **Nature's Engraver** Jenny Uglow, 2007-06-12 A beautifully illustrated biography of Thomas Bewick (1753-1828), the man whose art helped shape the way we view the natural world. At the end of the eighteenth century, Britain and much of the Western world fell in love with nature. Thomas Bewick's *History of British Birds* marked the moment when the first field guide for ordinary people, illustrated with woodcuts of astonishing accuracy and beauty, was published. But his work was far more than a mere guide; in the vivid vignettes scattered through the book, Bewick captured the vanishing world of rural English life. In this superb biography, Jenny Uglow tells the story of the farmer's son from Tyneside who influenced book illustration for a century to come. It is a story of violent change, radical politics, lost ways of life, and the beauty of the wild—a journey to the beginning of our lasting obsession with the natural world. **Thomas Bewick** Nigel Tattersfield, 2014 Thomas Bewick (1753-1828) was the foremost wood engraver of his generation, and the quality of his work has remained unsurpassed. His extraordinary woodcuts of animals and birds made him famous, and he dramatically influenced the development of the illustrated book in both England and America. Yet Bewick was no isolated creative genius toiling in an artist's atelier; he was a trade engraver in the heart of the city of Newcastle upon Tyne, working at the very moment when the Industrial Revolution was beginning to change the world. This book celebrates the skill of the artist by presenting 60 engravings, some never published before, and by offering a historical perspective. Thomas Bewick Graham Richard Williams, 2021 For over two hundred years, Thomas Bewick's engravings have delighted every generation. His birds, animals, and the scenes he saw around him have generated an enthusiasm for his work that has never waned. His influence changed wood engraving and book illustration for over a century. He showed a new way to use an old skill of cutting images in wood. This book is not a biography of the man but an account of how his talent evolved and how his blocks can still perform their magic. It shows the development of Bewick's engraving, beginning with his first learning exercises, some of which have survived.

and are included one never published before Bewick's talent was obvious to those around him particularly with his engraving of animals and birds he knew well Towards the end of his apprenticeship he began a commission to illustrate Gays Fables He kept a quantity of proofs many before their final state and through them the book traces the emergence of his skills as an engraver This is when he developed his techniques of line engraving and stippling a discovery that his mature work later relied on and he paid close attention to the texts that he followed with studied realism The great variety of work he carried out when he became a journeyman is revealed including a quantity of engraving on silver and other metals an essential part of both Bewick's training and his mature skill He did not work only on wood **Thomas Bewick, wood engraver** Thomas Bewick, 1979 [A Memoir of Thomas Bewick.
