

Turkey is a transcontinental country located mainly on the peninsula of Anatolia in Western Asia, with a smaller portion on East Thrace in Southeast Europe. Turkey's capital is Ankara, while its largest city and financial centre is Istanbul.

Turkey is one of the world's top ten destination countries, with the highest percentage of foreign visitors arriving from Europe. Turkey has 19 UNESCO World Heritage Sites, and 84 World Heritage Sites in tentative list.

Turkey has a very diverse culture that is a blend of various elements of the Turkic, Anatolian, Ottoman (which was itself a continuation of both Greco-Roman and Islamic cultures) and Western culture and traditions.

Turkish culture is a product of efforts to be a 'modern' Western state, while maintaining traditional religious and historical values.

Turkey A Short History:

Turkey Norman Stone, 2014-06-17 Arresting Stone's *Turkey* breaks the popular mould and introduces its readers to a place beyond their presumptions. The Sunday Times. In *Turkey A Short History* the celebrated historian Norman Stone deftly conducts the reader through the fascinating and complex story of Turkey's past from the arrival of the Seljuks in Anatolia in the eleventh century to the modern republic applying for EU membership in the twenty first. It is an account of epic proportions featuring rapacious leaders such as Genghis Khan and Tamerlane the glories of Sultan Suleyman the Magnificent and Kemal Ataturk the reforming genius and founder of modern Turkey. For six hundred years Turkey was at the heart of the Ottoman Empire a superpower that brought Islam to the gates of Vienna and stretched to North Africa the Persian Gulf and the river Volga. Stone examines the reasons for the astonishing rise and the long decline of this world empire and how for its last hundred years it became the center of the Eastern Question as the Great Powers argued over a regime in its death throes. Then as now the position of Turkey a country balanced between two continents provoked passionate debate. Stone concludes the book with a trenchant examination of the Turkish republic created in the aftermath of the First World War where East and West religion and secularism and tradition and modernization are vibrant and sometimes conflicting elements of national identity.
