Walkowitz, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company *Urban Ethics in the Anthropocene* Jeffrey K.H. Chan, 2018-07-03 Increasingly we live in an environment of our own making a world as design over the natural world For more than half of the global population this environment is also thoroughly urban But what does a global urban condition mean for the human condition How does the design of the city and the urban process in response to the issues and challenges of the Anthropocene produce new ethical categories shape new moral identities and relations and bring about consequences that are also morally significant In other words how does the urban shape the ethical and in what ways Conversely how can ethics reveal relations and realities of the urban that often go unnoticed This book marks the first systematic study of the city through the ethical perspective in the context of the Anthropocene Six emergent urban conditions are examined namely precarity propinquity conflict serendipity fear and the urban commons *Film and the Ethical Imagination* Asbjorn Gronstad, 2016-11-24 This book provides a comprehensive critical overview of the turn to ethics in literature film and visual culture It discusses the concept of a biovisual ethics offering a new theory of the relation between film and ethics based on the premise that images are capable of generating their own ethical content This ethics operates hermeneutically and materializes in cinema s unique power to show us other modes of being The author considers a wealth of contemporary art films and documentaries that embody ethical issues through the very form of the text The ethical imagination generated by films such as *The Nine Muses* *Post Tenebras Lux* *Amour* and *Nostalgia For the Light* is crucially defined by openness uncertainty opacity and the refusal of hegemonic practices of visual representation *The Turn to Applied Ethics* European Society for Research in Ethics. Conference, Theodoor van Willigenburg, 1993 Peeters 1993 *On the Turn* Bárbara Arizti, Silvia Martínez-Falquina, 2009-05-05 *On the Turn The Ethics of Fiction in Contemporary Narrative in English* is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics The editors introduction investigates the current state of affairs on the return to ethics in critical and literary consideration and it opens up the way for the variety of approaches that follows Participants include internationally recognized scholars like Andrew Gibson Patricia Waugh or Native American fiction writer and poet Gordon Henry winner of the American Book Award in 1995 All in all contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post deconstruction ethics Authors analyze texts both mainstream and marginal colonial and postcolonial they examine the ethics of race gender and sexuality the ethics of self positioning and orientation the ethics of style the ethics of reception the ethics of mode and genre the ethics of extreme situations of evil disease and fascism In its search for a better understanding of the global nationalistic world of today *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider more urgent relevance What should I ought I

may I must I do if anything on the basis of reading when I have read a literary work What does reading a literary work authorize or even command me to do Writing an essay about the work would be one response On the Turn is a wonderfully diverse learned challenging provocative even sometimes controversial collection of essays on the ethical dimensions of literature This book is testimony to the continued lively interest in the ethical turn in literary studies The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers values and judgments Poetry and non print media are however also discussed J Hillis Miller UCI Distinguished Research Professor of Comparative Literature and English University of California at Irvine The Ethics of Fiction is an important and exciting volume that explores with energy and rigour the connections between ethics and literature Relating literature to philosophy neurobiology politics religion deconstruction and psychoanalysis the twenty two contributors richly advance the ethical turn recently embraced by many critics Works by authors such as Ian McEwan A S Byatt Charles Palliser Hanif Kureishi J M Coetzee David Malouf George Orwell E L Doctorow Flannery O Connor Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality the nature of love Islamophobia and the politics of representation are tackled with imagination and intellectual integrity This book is essential reading for anyone interested in the dialogue between ethics and literature Avril Horner Professor of English Kingston University *The Ethical Turn* David Goodman, Eric Severson, 2016-05-26 Levinas 1969 claims that morality is not a branch of philosophy but first philosophy and if he is right about this might ethics also serve as a first psychology This possibility is explored by the authors in this volume who seek to bring the ethical turn into the world of psychoanalysis This phenomenologically rich and socially conscious ethics has taken centre stage in a variety of academic disciplines inspired by the work of philosophers and theologians concerned with the moral fabric of subjectivity human relationship and socio political life At the heart of this movement is a reconsideration of the other person and the dangers created when the question of the Other is subsumed by grander themes The authors showcased here represent the exceptional work being done by both scholars and practitioners working at the crossroads between psychology and philosophy in order to rethink the foundations of their disciplines The Ethical Turn Otherness and subjectivity in contemporary psychoanalysis guides readers into the heart of this fresh and exciting movement and includes contributions from many leading thinkers who provide fascinating new avenues for enriching our responses to suffering and understandings of human identity It will be of use to psychoanalysts professionals in psychology postgraduate students professors and other academics in the field **Mapping the Ethical Turn** Todd F. Contemporary political philosophy especially in the works of Martha Nussbaum John Rawls and Amartya Sen has assumed
that it can separate itself off from other philosophical positions and frameworks In this book Den Uyl and Rasmussen
challenge this trend by moving from the liberalism they advocate in their earlier work to what they call individualistic
perfectionism in ethics They continue to challenge the assumption that a neo Aristotelian ethical framework cannot support a
liberal non perfectionist political theory by filling in the nature of the perfectionist ethical approach utilised in their previous
political theorising By developing the central features and principles of individualistic perfectionism they show that it is a
major and powerful alternative to much contemporary ethical thinking particularly to constructivism and that it is capable of
overcoming standard objections to perfectionism *The Bloomsbury Encyclopedia of Philosophers in America* John R.
