Turning Japanese:

Windows on Japan Bruce Roscoe, 2007 *Windows on Japan* is a deeply insightful commentary that alternates chapters of physical travel with travel through perception about Japan and challenges the logic of much Western thought about the country that perplexes as much as it pleases The author walked a route that connects the ports of Niigata and Yokohama and from these windows on the world considers perceptions of people and place He also assesses the effect of Japan on writers from Jonathan Swift to Oscar Wilde Shirley MacLaine and Paul Theroux with surprising results The trading entity that wraps its tentacles around the globe converses in most languages and understands most customs is perceptive and urbane and none appears more capable or cosmopolitan Yet the individuals who inhabit these islands take refuge in their language as a private habitat resent intrusions and are captured by a cultural particularism that distances them from others The author discusses this paradox as well as environmental and linguistic issues and topics of history and literature Along the way he lifts a veil on the life of a snow country geisha discusses current events with a priest and a reporter and takes advice on becoming a Japanese Though he is understood it is only on return visits to places he has come to love that he wins acceptance Notes on music delightfully enrich the narrative

Adaptation Studies Christa Albrecht-Crane, Dennis Ray Cutchins, 2010-07-31 The volume takes as its starting point the assumption that adapters cannot simply transpose or transfer one particular text from one medium to another They must interpret re work and re imagine the precursor text in order to choose the various meanings and sensations they find most compelling or most cost effective then they create scenes characters plot elements etc that match their interpretation These very relationships are the subject matter this collection seeks to explore Poststructural theory is an ideal place to begin a rigorous and theoretically sound investigation of adaptation As adaptation studies adopts a poststructuralist lens and defines this richer notion of intertextuality some of its key assumptions will change Adaptation scholars will recognize that all film adaptations are intertextual by definition multivocal by necessity and adaptive by their nature

The World Cup 2006 in verse Peter Goulding, 2010-11-20 A diary of the World Cup 2006 in Germany in verse form Peter Goulding gives a day by day account of matches and rest days as they happened all done in his inimitable style

Western Rock Artists, Madame Butterfly, and the Allure of Japan Christopher T. Keaveney, 2020-08-06 Using the framework of Edward Said's Orientalism this work examines how Western rock and pop artists particularly during the age of album rock from the 1970s through the 1990s perpetuated long held stereotypes of Japan in their direct encounters with the country and in songs and music videos with Japanese content

Encyclopedia of Asian-American Literature Seiwoong Oh, 2010-05-12 Traces American writers whose roots are in all parts of Asia including China Korea Japan Southeast Asia the Philippines the Indian subcontinent and the Middle East

What the Luck? Brian Cramer, 2015-03-24 Bill Brabham a recently divorced and unemployed financial manager from Texas is a man down on his luck With nothing left to lose except possibly a few years of his life he takes a high risk high

reward job cleaning up at the Fukushima Daiichi Nuclear Power Plant While in Japan his luck drastically changes and everything starts to go right for him Unfortunately his new found luck seems to be coming at the expense of those around him His investigation into this phenomenon puts him in the middle of a dangerous criminal conspiracy where he must contend with everything from the Yakuza to a sassy teenage girl with a penchant for role playing
