Urban Mission:

Discipling the City Roger S. Greenway, 2000-12-29 Urban Mission Field J. L. Shelton, 2012-02 The Urban Mission Field is one of the most misunderstood and neglected areas of potential ministry in our land Many of our Churches are located right in the middle of these prospective ministry zones Unfortunately not many of our Churches truly do anything to reach these people groups with the message of the Gospel of Jesus Christ This book discusses What is the Urban Mission Field Why we should be doing Urban Missions What Urban Missions look like How to prepare and train for Urban Missions How to do Urban Missions How to develop strategy for Urban Missions The traditional mindset of Outreach Evangelism Urban Missions must be challenged The undeniable reality is that the Church has failed her communities It is evident when we look at the statistics We must Re form and Re focus We must Repent **Urban Mission** John E. Kyle, 1988 These addresses from the Urbana 87 Student Missions Convention focus on God's concern for the cities of the world Edited by John Kyle 192 pages paper **New York City Mission Monthly**, 1900 *Reaching the City* Gary Fujino, Timothy R. Sisk, Tereso C. Casino, 2012-06-28 Rapid urbanization and globalization processes worldwide have changed the landscape of our times In Asia and Africa the number of urban dwellers increases by an average of one million per week according to the United Nations More than half of the globe's seven billion human beings now live in cities These realities have far reaching implications for mission in urban contexts at the start of the third millennium *Reaching the City Reflections on Urban Mission for the Twenty first Century* seeks to address the missiological challenges associated with this new world order Each author in this collection respectfully builds upon the significant contributions of seminal writers such as Ray Bakke Jacques Ellul Basil of Caesarea and others while making new and creative proposals for urban mission in our world today Beginning with the bigger picture of the global challenges of urbanization and moving through theological historical and educational perspectives this volume concludes with a rich bevy of case studies engaging these new realities of both North American and international cities to encourage a missional thrust to reach these communities **Theology for Changing Times** Christopher R. Baker, Elaine Graham, 2018-09-30 From wealth creation to wealth distribution and social ethics from urban mission to religious studies and psychology the work of John Atherton was breathtaking in scope and variety Unifying all of his work however was a concern with engaging the work of theology with wider society With contributions from some of the leading lights in public theology today this book offers not only an appreciation of John Atherton's work within a prodigiously large array of disciplines but also an attempt to ask what next taking his work forward and considering where the future of public theology might lie John Atherton's last published article is also reproduced *Re-Visioning African Pentecostal-Charismatic Ecclesiology in the Public Sphere* Christian Tsekpoe, Lord Elorm Donkor, 2024-09-05 Despite the current impressive numerical growth of Pentecostal Charismatic Christianity in Africa there remain some concerns about the extent to which the church is making the desired impact in the public space As the church grows numerically the African

continent is ironically plagued with many regrettable stories of corruption bad governance sexual abuse gender discrimination and perversion environmental degradation robbery economic crisis leading to poverty and hunger wars and other social vices This paradoxical increase in vices alongside the demographic growth of the Christian population on the continent has caused many to question the social impact of African Christianity Re Visioning African Pentecostal Charismatic Ecclesiology in the Public Sphere is a response to these observations The contributors to this volume who are made up of seasoned academics theological educators and missiologists and mission practitioners have engaged the subject from multidisciplinary perspectives highlighting significant contributions of African Pentecostalism while pointing out critical areas for urgent attention The volume is intended to stimulate conversations around the church's mandate of influencing the public sphere as an agent of social transformation

Soft Assets in Smart and Resilient City Development Eiko Wataya, Rajib Shaw, 2024-09-05 Over the past decade building smarter resilient cities is an established global trend in urban development including developing countries Unexpected external shocks disasters and damage from climate change have major impacts on sustainable growth and well being for citizens in today's cities and requires comprehensive solutions To deal with these negative events cities predominantly invest in hard physical infrastructure with less attention on non physical soft assets which are intangible in nature and more difficult to quantify but essential to achieve effective balanced sustainable development The value of soft assets can be substantial and consistent implementation by cities can generate diverse value and be transformative for their urban development For that purpose cities need to establish an appropriate strategy framework and structure to incorporate soft assets during the plan and implementation of hard infrastructure This book argues that integrating soft assets in smart resilient city development is critical to make the hard infrastructure work effectively and create value for cities The literature review underlines that soft capital can be defined as 1 human 2 institutional 3 external 4 technology and information and 5 social The book also examines how soft assets can be effectively integrated into and create value for smart resilient city development Based on previous findings and original research a unique approach is adopted through the verification of different city level approaches using the concept of influential nodes showcasing layered and composite value creation The analysis addresses innovative implementation factors which enhance disaster resilience and the environment which is particularly relevant for cities in developing countries Drawing on previous research in depth reviews new data and case studies the book provides new insights and specific policy and action measures to enhance the utilization of soft asset components in parallel with hard infrastructure in smart and resilient city in developing countries

Crossover City Andrew Davey, 2010-08-05 Reflections on key themes in missiology and theology from an urban perspective

Facing the City Rod Garner, 2004 Can the Church retain a faithful and creative presence in the inner cities as the pressures of finance and dwindling congregations become more acute What kind of

resources and strategies are required for urban mission and ministry in a time of rapid change and social fragmentation. More than ever Christians are challenged to make sense of the competing narratives, values, and aims found in its urban context. The author shows how a fresh integration of theology, prayer, and strategic community partnerships is able to promote a more effective role for the Church in the global city.

God So Loves the City Charles E. Van Engen, Jude Tiersma, 2009-08-01. From the explosive contexts of Nairobi, Mexico City, Los Angeles, and Madras, fresh insights on the mission of the church for the city. Jude Tiersma and Charles Van Engen worked closely with an international team of experienced urban practitioners to explore the most urgent issues facing those who minister in today's cities. From each particular urban setting, a team member contributed a story from ministry in the city. Each story uniquely illustrates a different challenge of urban ministry in the face of injustice, marginalization, and urban structures. This book brings you these stories, then retells them in light of Scripture, introducing new hope to each one. From these stories emerge new ideas about the nature of cities and how to practice ministry in them. The new methodology employed by Van Engen and Tiersma's team leads us in the first steps toward a theology of mission for the city. **God So Loves the City** is a must for pastors, seminary students, missiologists, congregation members, and all who are concerned about urban ministry.

Small Voice, Big City Howard Snyder, 2016-03-14. **Small Voice, Big City** sets urban mission in the mission of Jesus in a broad context: people, land, and the kingdom of God. This book focuses on the power of the gospel, often outwardly weak, small, foolish, to heal the nations and redeem earth's cities. The gospel proved powerful in the first century world when the church was born; it still is today.

Urban Mission Michael A. Mata, John J. Vincent, 2001. These papers are published here with a view toward fostering discussion about the ever-emerging theology of urban mission. They offer a careful scrutiny of the significance of global urbanization and the sound grounding of a theology of urban mission within Wesleyan spirituality.
