The Social Life of Small Urban Spaces William H. Whyte (Jr.), 1980 In 1980 William H Whyte published the findings from his revolutionary Street Life Project in The Social Life of Small Urban Spaces Both the book and the accompanying film were instantly labeled classics and launched a mini revolution in the planning and study of public spaces They have since become standard texts and appear on syllabi and reading lists in urban planning sociology environmental design and architecture departments around the world

New Urban Spaces Neil Brenner, 2019-05-24 The urban condition is today being radically transformed Urban restructuring is accelerating new urban spaces are being consolidated and new forms of urbanization are crystallizing In New Urban Spaces Neil Brenner argues that understanding these mutations of urban life requires not only concrete research but new theories of urbanization To this end Brenner proposes an approach that breaks with inherited conceptions of the urban as a bounded settlement unit the city or the metropolis and explores the multiscalar constitution and periodic rescaling of the capitalist urban fabric Drawing on critical geopolitical economy and spatialized approaches to state theory Brenner offers a paradigmatic account of how rescaling processes are transforming inherited formations of urban space and their variegated consequences for emergent patterns and pathways of urbanization The book also advances an understanding of critical urban theory as radically revisable key urban concepts must be continually reinvented in relation to the relentlessly mutating worlds of urbanization they aspire to illuminate

Urban Spaces 3 John Dixon, 2004 The Urban Land Institute has again cooperated with Visual Reference Publications to co sponsor this third volume titled Urban Spaces No 3 which showcases more than 140 outstanding urban mixed use design projects by leading architects landscape architects urban designers and planners This 320 page volume with over 500 beautifully reproduced full colour images is an invaluable reference for urban planners public officials building committees and professionals who are responsible for the planning design and construction of urban developments of all kinds *Small Urban Spaces* Whitney North Seymour, 1969

between research and design exploring the field of tension between science technology and art This book presents the proceedings of the latest in this series of conferences New Urban Configurations held in Delft the Netherlands in October 2012 in collaboration with the European Association for Architectural Education EAAE and the International Seminar on Urban Form ISUF This edition of the conference discussed the role and critical potential of the architectural project in the transformation process of cities and territories that leads to new urban configurations The publication contains all 140 accepted papers and a selection of the keynote lectures presented at the conference The papers have been grouped into five main themes innovation in building typology infrastructure and the city complex urban projects green spaces and delta urbanism Four of these major topics are further divided into several subtopics This book will be of interest to everyone involved in designing building thinking about as well as managing the urban landscape and territory

Public Places Urban Spaces Matthew Carmona,2021-02-15 Public Places Urban Spaces provides a comprehensive overview of the principles theory and practices of urban design for those new to the subject and for those requiring a clear and systematic guide In this new edition the book has been extensively revised and restructured Carmona advances the idea of urban design as a continuous process of shaping places fashioned in turn by shifting global local and power contexts At the heart of the book are eight key dimensions of urban design theory and practice temporal perceptual morphological visual social functional and two new process dimensions design governance and place production This extensively updated and revised third edition is more international in its scope and coverage incorporating new thinking on technological impact climate change adaptation strategies for urban decline cultural and social diversity place value healthy cities and more all illustrated with nearly 1 000 carefully chosen images Public Places Urban Spaces is a classic urban design text and everyone in the field should own a copy

Urban Spaces Jacobo Krauel,2014 This collection of outstanding projects for public spaces is an excellent overview of current trends in urban planning new forms of social existence have led to an increased interest in the definition of urban space Our cities have already crossed the dividing line between space to inhabit and habitable space and at present it is difficult to conceive of a good urban development plan without an equally good plan of the public space involved This volume has brought together examples of the best in urban design with the indelible stamp of the most internationally known professionals Each of them is thoroughly documented and illustrated with full color glossy photographs and drawings to capture the full scale of the project s complexities technical assets and aesthetic innovations This book the fruit of a complete case study will undoubtedly be of the greatest value to all architects urban planners and students seeking an introduction to the latest tendencies in the field of public space design Links Books

Urban Spaces James Jennings,Julia S. Jordan-Zachery,2009-12-30 The control and utilization of urban spaces remains a highly contested issue Much of the debate centers on issues of economic development versus the maintenance and support of already existing communities As a number of urban areas are in the throes of gentrification and economic development projects there is a dearth of information

on not only the use of private power in this process but also the response of the community members This anthology responds to a growing concern about urban and community development and the role of corporate power These essays focus on key themes of land ownership and management community resistance against corporate agendas and public discourse over these issues These themes are presented and developed within an interdisciplinary framework which includes information and commentary about history contemporary politics economic development and ideology Most of the chapters include case studies that provide concrete examples of contemporary developments in urban areas and each chapter includes discussion questions and a list of key words and terms to help guide the reader

MEDIACITY. Situations, Practices and Encounters Frank Eckardt,2008-01-01 MEDIACITY Situations Practices and Encounters investigates how the social settings and spaces of the city are created experienced and practiced through the use and presence of new media It takes the position that new media enables different settings practices and behaviours to occur in urban space Contributions from academics practitioners and activists from disciplines such as Media Studies Architecture Urban Studies Cultural and Urban Geography and Sociology present a critical reflection on the processes methods and impacts of technologies in urban space *Space in Macro and Micro Scales* Tuba Nur OLĞUN, Murat ŞAHİN , Gökhan GENÇ, Fatma Süphan SOMALI, Gökhan GENÇ , Murat ŞAHİN, Tülay ÇİVİCİ , A. Augmented Urban Spaces Alessandro Aurigi,Fiorella De Cindio,2008 This book explores the intersection and articulation of physical and digital environments and the ways they can extend and reshape a spirit of place while considering the problems posed and opportunities that arise Grounded with international real life

Pedestrian Zones Chris van Uffelen,2015 In 2009 plans by New York mayor Michael Bloomberg to transform part of Broadway including Times Square into a pedestrian area caused a sensation not just in the city but internationally Urban areas where pedestrians have right of way over vehicles are becoming increasingly important in the modern city and have enjoyed growing popularity since the 1950s Not only do they increase the quality of life of the residents they also become an increasingly important locational factor In general there are two types of pedestrian zones the first serves primarily as an alternative transit route with out cars while the second is dedicated to shopping and entertainment in the form of traffic free shopping streets and open pedestrian areas within shopping malls Based on a careful selection of projects this volume presents the functional and design variety of these popular urban spaces

Temporary Urban Spaces Florian Haydn,2006 A fresh approach has emerged to questions of town planning and the use of public and private space where the focus is no longer on the master plan the strategy and the making of long term arrangements This volume brings together articles and essays by renowned individual authors who approach the subject from a theoretical perspective
