Casino Life Phil Watts,2018-10-31 Walking through the doors of a casino can feel like entering a portal into another dimension A cacophony of electronic and human sounds assaults the ears as you watch people transacting large amounts of money But this is no ordinary purchasing of goods or services where you quietly wave a card or hand out notes from a purse Instead money is swapped for colourful plastic chips that are placed pushed and thrown onto gaming tables with seemingly reckless abandon by a wide array of people young old cultured relaxed happy and grim Phil Watts as an experienced forensic psychologist knew a lot about human nature before he walked into his first casino at 40 years of age He had treated clients with a wide range of difficulties including gambling yet was still struck by the casino environment an exciting world with its own culture pace rules social etiquette and shared expectations This other world intrigued and surprised him So he wrote a book about it Casino Life will be of interest to those who seeking to know more about casinos and their psychological effects those who seek to find out why others gamble and those who do gamble not as a treatment but as a window to see what you are doing and how that has an impact upon you Along the way you will read about why people gamble why gambling can become addictive and the treatments used to help problem gamblers as well as the beliefs around gambling and some of the elaborate theories people use to explain why they try to defy mathematical odds You will also learn about the fascinating cultural and behavioural patterns of everyday casino life
