Writing Women:

Writing Women's History Since the Renaissance Mary Spongberg, 2017-03-08 The complaint of Catherine Morland in Jane Austen's *Northanger Abbey* that history has hardly any women at all is not an uncommon one Yet there is evidence to suggest that women have engaged in historical writing since ancient times This study traces the history of women's historical writing reclaiming the lives of individual women historians recovering women's historical writings from the past and focusing on how gender has shaped the genre of history Mary Spongberg brings together for the first time an extensive survey of the progress of women's historical writing from the Renaissance to the present demonstrating the continuities between women's historical writings in the past and the development of a distinctly woman-centred historiography *Writing Women's History since the Renaissance* also examines the relationship between women's history and the development of feminist consciousness suggesting that the study of history has alerted women to their unequal status and enabled them to use history to achieve women's rights Whether feminist or anti-feminist women who have had their historical writings published have served as role models for women seeking a voice in the public sphere and have been instrumental in encouraging the growth of a feminist discourse

Writing Women's Literary History Margaret J. M. Ezell, 1996-11-08 Ezell critically examines these successful women's literary histories and applies to them the same self-conscious feminism that critics have applied to more traditional methods Drawing both on French feminisms and on recent historicist scholarship Ezell points us to new possibilities for the recovery of early modern women's literary history By championing the recovery of lost women writers and insisting on reevaluating the past women's studies and feminist theory have effected dramatic changes in the ways English literary history is written and taught In *Writing Women's Literary History* Margaret Ezell critically examines these successful women's literary histories and applies to them the same self-conscious feminism that critics have applied to more traditional methods According to Ezell by relying not only on past male scholarship but also on inherited notions of tradition some feminist historicists replicate the evolutionary narrative model of history that originally marginalized women who wrote before 1700 Drawing both on French feminisms and on recent historicist scholarship Ezell points us to new possibilities for the recovery of early modern women's literary history

Writing Woman Sheila Delany, 2007-05-01 In *Writing Woman* Sheila Delany examines the artifact woman from a radical perspective Each individual is seen by Delany as an artifact made not born laboriously worked up pieced together written and rewritten Other qualities are added to this artifact through novels poems lyrics ad copy television scripts nursery rhymes and the English language itself These layers of meaning result in the artifact woman as topic Sheila Delany traces her own development as a radical thinker in the opening chapter *Confessions of an Ex-handkerchief Head* or *Why This Is Not a Feminist Book* She discusses bourgeois women in medieval life and letters womanliness marriage and misogyny in Chaucer sex and politics in Pope's *The Rape of the Lock* the feminist utopias of Charlotte P Gilman and Marge Piercy and in considering woman as writer the scene or place of writing in Christine

de Pisan and Virginia Woolf **Women Writing Women** Patricia Hart, Karen Weathermon, Susan Hodge Armitage, 2006-01-01 By merging scholarly writing with personal life stories *Women Writing Women* creates a new setting for communicating the unique experiences of women The interdisciplinary nature of this volume incorporating authors ideas on identity gender and social realities illuminates a rich diversity of experiences To give voice to the different realities women live in and write from the editors have divided the anthology into four sections writing about the self writing about the family and other intimate relationships writing about the women they study and writing about women from sources such as diaries and letters Within this framework women touch on subjects such as ethnicity sexuality motherhood and feminist versus traditional values The result is a collection of essays that pays tribute to women s complex realities and to their critical creativity in writing about those realities *Writing Women's Literary History* Margaret J. M. Ezell, 1993 By championing the recovery of lost women writers and insisting on reevaluating the past women s studies and feminist theory have effected dramatic changes in the ways English literary history is written and taught According to Margaret Ezell the next step is to examine critically these successful efforts to write women s literary history to apply the same self conscious feminism that critics turned on traditional methods of literary history Examining various models of the new tradition of women s writing Ezell explores the shared usually unconscious assumptions that underlie accounts of early women writers When twentieth century histories of women s literature rely not only on past male scholarship and editing practices but also on inherited notions of tradition and progress she argues they tend to replicate an evolutionary model of history that marginalizes women who wrote before 1700 Drawing on the reading strategies of recent historicist scholarship along with those of French feminism Ezell illuminates the ways in which ideology shapes history and suggests new possibilities for the continued recovery of women s texts Writing women s literary history has been compared to doing archaeology to receiving an inheritance and to replanting a mother s garden In writing this book I am obviously starting with the belief in the value of this activity however it is characterized What concerns me in my reading of contemporary feminist theory is that the structures used to shape our narrative of women s literary history may have unconsciously continued the existence of the restrictive ideologies which initially erased the vast majority of women s writing from literary history and teaching texts *Women Working at Writing* Wendy Ripley, 1996 **Women's Life-writing** Linda S. Coleman, 1997 The essays in this collection offer readers vivid and varied evidence of the female response to recurring attempts by culture to artificially limit identity along the gendered lines of private and public experience Calling on voices both familiar and little known British and American black and white young and old poor and rich heterosexual and lesbian the essayists explore how women within unique personal and historical conditions used life writing as a means of both self understanding and connection to a community of sympathetic others real or imagined The life writings within this anthology span the modern history of the genre itself with writers drawn from as early as the seventeenth century and as late as the 1990s **A History of Women's**
