Nathan Cromly, 2024-06-05 St Paul s initial transformation was a dramatic shift from Saul to Paul from persecutor to believer from darkness to light And yet the scales falling from his eyes was only the beginning he lived and taught the lesson of transformation for the rest of his life In his book Fr Cromly reveals the universality and timelessness of St Paul s leadership what can happen if we let Christ transform our lives and how we can find guidance from this great saint who is in fact much like us Just a few of the lessons we can learn include Five essential questions that help us engage our God given freedom into action The forms of inner paralysis that result from giving in to fear and negativity How to follow Christ s call to love in whatever state of life we find ourselves in How God meets us where we are broken and weak and how to be open to it The role of the Holy Spirit in confronting fear and uncertainty St Paul s secret to turning negative circumstances into positive results The redemptive role of the daily grind and how to use it to glorify God Paul is the one who dares us to be impactful Christians in an often perilous world and who shows us how to transform our fears into courage our rejections into opportunities our suffering into grace and our solitude into union with Christ

In an Unspoken Voice Peter A. Levine, Ph.D., 2012-10-30 Unraveling trauma in the body brain and mind a revolution in treatment Now in 17 languages In this culmination of his life s work Peter A Levine draws on his broad experience as a clinician a student of comparative brain research a stress scientist and a keen observer of the naturalistic animal world to explain the nature and transformation of trauma in the body brain and psyche In an Unspoken Voice is based on the idea that trauma is neither a disease nor a disorder but rather an injury caused by fright helplessness and loss that can be healed by engaging our innate capacity to self regulate high states of arousal and intense emotions Enriched with a coherent theoretical framework and compelling case examples the book elegantly blends the latest findings in biology neuroscience and body oriented psychotherapy to show that when we bring together animal instinct and reason we can become more whole human beings *The Epworth Herald* , 1909
