This Great Land:

The Great Land Question. Being a Verbatim Transcript of the Correspondence in Doe Versus Roe Christopher Cavanagh,2025-07-08 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Great Land Rush and the Making of the Modern World, 1650-1900* John C. Weaver,2003 A critique of the greatest reallocation of resources in the history of the world and an analysis of its effects on indigenous peoples the growth of property rights and the evolution of ideas that make up the foundation of the modern world

Great Land Rush and the Making of the Modern World, 1650-1900 John C. Weaver,2003-04-24 He also underscores the tragic history of the indigenous peoples of these regions and shows how they came to lose possession of their land to newly formed governments made up of Europeans with European interests at heart Weaver shows that the enormous efforts involved in defining and registering large numbers of newly carved out parcels of property for reallocation during the Great Land Rush were instrumental in the emergence of much stronger concepts of property rights and argues that this period was marked by a complete disregard for previous notions of restraint on dreams of unlimited material possibility Today while the traditional forms of colonization that marked the Great Land Rush are no longer practiced by the European powers and their progeny in the new world the legacy of this period can be seen in the western powers insatiable thirst for economic growth including newer forms of economic colonization of underdeveloped countries and a continuing evolution of the concepts of property rights including the development and increasing growth in importance of intellectual property rights
