"On Second Thought" and Other Essays in the History of Medicine and Science Owsei Temkin, 2002-01-11 Over the course of a career spanning most of the twentieth century distinguished historian Owsei Temkin has argued passionately for the necessity of chronicling and analyzing the history of medicine The essays presented in this book span Dr Temkin's career bringing together new pieces and many previously unavailable outside the journals in which they were originally published Here the reader will find new thoughts and ideas that deviate from Dr Temkin's earlier beliefs and reflect a lifetime of research into the historical and ethical foundations of modern medicine *And Other Essays* Michael Cohen, 2020-08-03 In this essay collection the sequel to his *A Place to Read* Michael Cohen presents the odd idea of the suicide note as a writing project that can be critiqued like any other describes encounters with illegal border crossers in south Texas and ponders the sudden popularity of books about atheism Books are a frequent subject here and Cohen makes an argument for *The Maltese Falcon* as the Great American Novel searches for the perfect the Platonic nature handbook and compares playing golf to reading about it Reading is for him as engrossing a form of experience as any other say hitchhiking through the Southwest with an old friend the joys of flying small planes or the charm of studying ancient Greek while people watching at the gym all experiences chronicled here He looks back at the effect a 1956 collision of two airliners over the Grand Canyon had on him as a kid fond of flying and how he learned about the joys of good food during a wanderjahr in Europe Many of these essays begin with a question whether Americans deserve their reputation for materialism why we seem to have lost the climate change battle and whether talking to yourself might really be beneficial Another frequent topic is how our ideal places cannot avoid being bruised by time He looks at what happened as the Tucson bars of his college days closed or morphed into very different places He traces seasonal changes in the desert He notes what happens to its effect when a giant cross beside I 40 in Texas is joined by equally giant windmills And he takes a mind's eye tour through Paris's terrace cafés and their literary associations after the 2015 terrorist attack there **The Double Face of Janus and Other Essays in the History of Medicine** Owsei Temkin, 2006-11-02 Preeminent historian of medicine Owsei Temkin brought to his writing an awesome range of scholarship for he was at home in the classical the medieval and the modern eras The essays gathered in this volume deal with all the topics that Temkin considered most important in his work They were widely commended for their originality intelligent analysis and impressive continuity of thought Temkin explores the history of basic medical sciences of health and disease and of surgery and drug therapy as well as general questions concerning the historical and philosophical approach to medicine from antiquity to the early twentieth century In a retrospective introduction which gives the book its name Temkin relates his writings to his career as a scholar in Germany and the United States He situates the writings against the background of the development of the study of medical history and provides recollections of such prominent figures as Karl Sudhoff Henry E Sigerist William H Welch and Richard H Shryock

Originality, and Other Essays William Henry McMaster,1921 China's New Nationalism and Other Essays Harley Farnsworth MacNair,1925 **Explaining Value and Other Essays in Moral Philosophy** Gilbert Harman,2000 Explaining Value is a selection of the best of Gilbert Harman s shorter writings in moral philosophy The thirteen essays originally published between 1967 and 1999 are divided into four sections which focus in turn on moral relativism values and valuing character traits and virtue ethics and ways of explaining aspects of morality An indication of the breadth of interest of the book can be given by mentioning a few of the compelling questions which Harman discusses What accounts for the existence of basic moral disagreements Why do most people think it is worse to injure someone than to fail to save them from injury Why do many people think it is morally permissible to treat animals in ways we would not treat people What is it to value something and what is it to value something intrinsically How much of morality can or should be explained in terms of human flourishing or the possession of virtuous character traits How do people come to be moral Harman s distinctive approach to moral philosophy has provoked much interest this volume offers a fascinating conspectus of his most important work in the area **The Ambivalence of Scarcity and Other Essays** Paul Dumouchel,2014-10-01 First published in French in 1979 The Ambivalence of Scarcity was a groundbreaking work on mimetic theory Now expanded upon with new specially written and never before published conference texts and essays this revised edition explores Ren Girard s philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition m connaissance which have been at the center of many discussions of Girard s work The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks Politics Dumouchel argues is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us The book s conclusion analyzes the relationship between ethics and economics opening new avenues of research and inviting further exploration Dumouchel s introduction reflects on the importance of Ren Girard s work in relation to ongoing research especially in social sciences and philosophy Reflections on Aesthetic Judgment and other Essays Benjamin Tilghman,2017-11-28 Benjamin Tilghman has been a leading commentator on analytic philosophy for many years This book brings together his most significant and influential work on aesthetics Spanning a period of thirty years and covering topics in aesthetics from literature to painting the collection traces the development of Tilghman s two principal themes a rejection of philosophical theory as a way of resolving problems about our understanding and appreciation of art and the importance of the representation and presentation of the human and human concerns in art Tilghman is profoundly influenced by the philosophy of Ludwig Wittgenstein and his work is informed throughout by his conception and practice of philosophy Written with exceptional clarity and with many references to original work in both painting and literature this

collection will be an invaluable resource not only for professional philosophers but for those working in the arts generally art historians critics and literary theorists *Why I Can't Read Wallace Stegner and Other Essays* Elizabeth

Cook-Lynn,1996-09-01 This provocative collection of essays reveals the passionate voice of a Native American feminist intellectual Elizabeth Cook Lynn a poet and literary scholar grapples with issues she encountered as a Native American in academia She asks questions of critical importance to tribal people who is telling their stories where does cultural authority lie and most important how is it possible to develop an authentic tribal literary voice within the academic community In the title essay Why I Can t Read Wallace Stegner Cook Lynn objects to Stegner s portrayal of the American West in his fiction contending that no other author has been more successful in serving the interests of the nation s fantasy about itself When Stegner writes that Western history sort of stopped at 1890 and when he claims the American West as his native land Cook Lynn argues he negates the whole past present and future of the native peoples of the continent Her other essays include discussion of such Native American writers as Michael Dorris Ray Young Bear and N Scott Momaday the importance of a tribal voice in academia the risks to American Indian women in current law practices the future of Indian Nationalism and the defense of the land Cook Lynn emphasizes that her essays move beyond the narrowly autobiographical not just about gender and power not just focused on multiculturalism and diversity but are about intellectual and political issues that engage readers and writers in Native American studies Studying the Indian Cook Lynn reminds us is not just an academic exercise but a matter of survival for the lifeways of tribal peoples Her goal in these essays is to open conversations that can make tribal life and academic life more responsive to one another **Collected Essays (1893-1894).: Evolution & ethics**

and other essays Thomas Henry Huxley,1970 **The Moral Equivalent of War, and Other Essays** William James,1971
