This Is The Castle:

The Castle John Goodall,2022-03-22 A vibrant history of the castle in Britain from the early Middle Ages to the present day The castle has long had a pivotal place in British life associated with lordship landholding and military might and today it remains a powerful symbol of history But castles have never been merely impressive fortresses they were hubs of life activity and imagination John Goodall weaves together the history of the British castle across the span of a millennium from the eleventh to the twenty first century through the voices of those who witnessed it Drawing on chronicles poems letters and novels including the work of figures like Gawain Poet Walter Scott Evelyn Waugh and P G Wodehouse Goodall explores the importance of the castle in our culture and society From the medieval period to Civil War engagements right up to modern manifestations in Harry Potter Goodall reveals that the castle has always been put to different uses and to this day continues to serve as a source of inspiration *The Castle of Swansea* Willia Llewellyn Morgan,1914 Castles and the Anglo-Norman World John A. Davies,Angela Riley,Jean-Marie Levesque,Charlotte Lapiche,2016-05-31 Castles and the Anglo Norman World is a major new synthesis drawing together a series of 20 papers by 26 French and English specialists in the field of Anglo Norman studies It includes summaries of current knowledge and new research into important Norman castles in England and Normandy drawing on information from recent excavations Sections consider the evolution of Anglo Norman castles the architecture and archaeology of Norman monuments Romanesque architecture and artifacts the Bayeux Tapestry and the presentation of historic sites to the public These studies are presented together with a consideration of the 12th century cross Channel Norman Empire which provides a broader context This work is the result of a conference held at Norwich Castle in 2012 which was part of a collaboration between professionals in the fields of archaeology architecture museums and heritage under the banner of the Norman Connections Project *The castles of England, their story and structure* sir James Dixon Mackenzie (bart.),1897 The Films of Akira Kurosawa, Third Edition, Expanded and Updated Donald Richie,2023-12-22 In an epilogue provided for his incomparable study of Akira Kurosawa 1910 1998 Donald Richie reflects on Kurosawa s life work of thirty feature films and describes his last unfinished project a film set in the Edo period to be called *The Ocean Was Watching* Kurosawa remains unchallenged as one of the century s greatest film directors Through his long and distinguished career he managed like very few others in the teeth of a huge and relentless industry to elevate each of his films to a distinctive level of art His *Rashomon* one of the best remembered and most talked of films in any language was a revelation when it appeared in 1950 and did much to bring Japanese cinema to the world s attention Kurosawa s films display an extraordinary breadth and an astonishing strength from the philosophic and sexual complexity of *Rashomon* to the moral dedication of *Ikiru* from the naked violence of *Seven Samurai* to the savage comedy of *Yojimbo* from the terror filled feudalism of *Throne of Blood* to the piercing wit of *Sanjuro* **The Castle** Franz Kafka,Anthea Bell,2009-07-08 K kept feeling that he had lost himself or was further away in a strange land than anyone had ever been

before A remote village covered almost permanently in snow and dominated by a castle and its staff of dictatorial sexually predatory bureaucrats this is the setting for Kafka's story about a man seeking both acceptance in the village and access to the castle Kafka breaks new ground in evoking a dense village community fraught with tensions and recounting an often poignant occasionally farcical love affair He also explores the relation between the individual and power and asks why the villagers so readily submit to an authority which may exist only in their collective imagination Published only after Kafka's death The Castle appeared in the same decade as modernist masterpieces by Eliot Joyce Woolf Mann and Proust and is among the central works of modern literature This translation follows the text established by critical scholarship and manuscript variants are mentioned in the notes The introduction provides guidance to the text without reducing the reader's own freedom to make sense of this fascinatingly enigmatic novel

ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more
