Uptaught By Macrorie Ken:

Uptaught, 1970 In this passionate book Ken Macrorie lays the blame for classroom dissatisfaction on the faculty epitomized by Percival the computer blind electronic enforcer of the academic clichés *Telling Writing* Ken Macrorie, 1985 Why is *Telling Writing* now in its fourth edition still going strong in hundreds of colleges and universities Ken Macrorie touches on the answer in his preface Good teaching in any field isn't a matter of employing gimmicks and choosing from a damnfool encyclopedia of tricks to play on students but a matter of setting up a climate friendly to learning and then challenging learners to connect their experience and ideas with those of the accepted authorities or producers Students can't become truly educated unless they grow out of and beyond themselves *Telling Writing* gives them an indispensable base a knowledge of themselves on which to grow Macrorie's approach works because it helps students break away from the deadly academic prose fostered by so many writing courses and enables them to write about and from their own experiences

Writing to be Read Ken Macrorie, 1984 *Writing to Be Read* is the high school version of *Telling Writing* This third edition reaffirms Ken Macrorie's continuing commitment to young writers as well as the perennial popularity of *Writing to Be Read* Like all fine teachers Macrorie has remained a student of his subject and this book is informed by fresh classroom discoveries The book embodies a carefully articulated writing course that gives students the freedom to find their voices and let their subjects find them Microhistories of Composition Bruce McComiskey, 2016-04-01 Writing studies has been dominated throughout its history by grand narratives of the discipline but in this volume Bruce McComiskey begins to explore microhistory as a way to understand, enrich, and complicate how the field relates to its past Microhistory investigates the dialectical interaction of social history and cultural history enabling historians to examine uncommon sites, objects, and agents of historical significance overlooked by social history and restricted to local effects by cultural history This approach to historical scholarship is ideally suited for exploring the complexities of a discipline like composition Through an introduction and eleven chapters McComiskey and his contributors including major figures in the historical research of writing studies such as Louise Wetherbee Phelps Kelly Ritter and Neal Lerner develop focused narratives of particular significant moments or themes in disciplinary history They introduce microhistorical methodologies and illustrate their application and value for composition historians contributing to the complexity and adding momentum to the emerging trend within writing studies toward a richer reading of the field's past and future Scholars and historians of both composition and rhetoric will appreciate the fresh perspectives on institutional and disciplinary histories and larger issues of rhetorical agency and engagement enacted in writing classrooms that are found in *Microhistories of Composition* Other contributors include Cheryl E Ball Suzanne Bordelon Jacob Craig Matt Davis Douglas Eyman Brian Gogan David Gold Christine Martorana Bruce McComiskey Josh Mehler Annie S Mendenhall Kendra Mitchell Antony N Ricks David Stock Kathleen Blake Yancey Bret Zawilski and James T Zebroski *Research in Education*, 1970 *Resources in Education*, 1970 *A Guidebook for Teaching Creative*
