Regional Futures Robert C. Brears,2023-01-13 While urban settlements are the drivers of the global economy and centres
of learning culture and innovation and nations rely on competitive dynamic regions for their economic social and
environmental objectives urban centres and regions face a myriad of challenges that impact the ways in which people live
and work create wealth and interact and connect with places Rapid urbanisation is resulting in urban sprawl rising emissions
urban poverty and high unemployment rates housing affordability issues lack of urban investment low urban financial and
governance capacities rising inequality and urban crimes environmental degradation increasing vulnerability to natural
disasters and so forth At the regional level low employment low wage growth scarce financial resources climate change
waste and pollution and rising urban peri urban competition etc are impacting the ability of regions to meet socio economic
development goals while protecting biodiversity The response to these challenges has typically been the application of
inadequate or piecemeal solutions often as a result of fragmented decision making and competing priorities with numerous
economic environmental and social consequences In response there is a growing movement towards viewing cities and
regions as complex and sociotechnical in nature with people and communities interacting with one another and with objects
such as roads buildings transport links etc within a range of urban and regional settings or contexts This comprehensive
MRW will provide readers with expert interdisciplinary knowledge on how urban centres and regions in locations of varying
climates lifestyles income levels and stages development are creating synergies and reducing trade offs in the development
of resilient resource efficient environmentally friendly liveable socially equitable integrated and technology enabled centres
and regions *Independent Offices and Department of Housing and Urban Development Appropriations for 1971* United
