Abstract

As clearly stated by the Conference's proposal, after a decade of *European urban and spatial policies*, it seems the time now for a deeper reflection on their influences in spatial and urban planning practices in the EU countries.

A brief survey on what concerns Italy allows us to observe that EU planning intervention has affected practically all the *levels of territorial government*, through many dimensions of what is first and foremost a material innovation, triggered as if by contamination by the arrival on the scene of the new institutional player. Changes are mainly visible in:

- the shaping of spatial frameworks for planning policies;
- the proliferation of new, different tools for regional and urban planning;
- a progressive re-equilibrium between "central" and "peripheral" regions;
- new institutional and administrative attitudes to negotiation and partnership;
- the cultural way of treating urban problems and conceiving planning;
- new emerging competences and "jobs" for planners.

A reflection on the deepest meaning of those many changes – and, more generally, on the substantial reasons of the (not institutionalised) EU intervention in planning policies – could contribute to better understanding on what, not only in Italy, can be expected from EU planning and what, consequently, can be improved in European development strategies.

* This note summarises and deepens the topics dealt in the monograph, entitled *L'innovazione comunitaria* (Community innovation) and edited by the author for a forthcoming issue of *Urbanistica* journal (Janin Rivolin, 2002).

Whatever Happened To Planning

Whatever Happened To Planning:

What Happened to Planning? (Routledge Revivals) Peter Ambrose,2015-02-03 This title was first published in 1986 during a recession much like that faced in recent years which placed immense pressure on the British planning system and led to social unrest in the inner cities and in many disadvantaged areas Within this context Peter Ambrose outlines the features of land development and explores the circumstances of post war planning The central section of the book deals with the key forces at work in land development finance the construction industry and the local and central state and explains how they interact Using a number of case studies including the greenfield urban fringe and London s docklands as well as examples drawn from other countries Ambrose provides an essential background to the British planning system and the problems still faced by it today

Handbook of Urban Studies Ronan Paddison,2001 The Handbook of Urban Studies provides the first comprehensive up to date account of the urban condition relevant to a wide readership from academics to researchers and policymakers It provides a theoretically and empirically informed account embracing all the different disciplines contributing to urban studies Leading authors identify key issues and questions and future trends for further research and present their findings so that where appropriate they are relevant to the needs of policymakers Using the city as a unifying structure the Handbook provides an holistic appreciation of urban structure and change and of the theories by which we understand the structure development and changing character

Urban Economic Development, Past Lessons and Future Requirements ,1979

Deprivation, State Interventions and Urban Communities in Britain, 1968-79 Peter Shapely,2017-08-16 Focusing on a series of policy initiatives from the late 1960s through to the end of the 1970s this book looks at how successive governments tried to address growing concerns about urban deprivation across Britain It provides unique insights into policy and governance and into the socio economic and cultural causes and consequences of poverty Starting with the impact of redevelopment policies immigration and the rise of the inner city this book examines the pressures and challenges that explain the development of policy by successive Labour and Conservative governments It looks at the effectiveness and limits of different community development approaches and at the inadequacies of policy in tackling urban deprivation In doing so the book highlights the restricted impact of pilot projects and reform of public services in resolving deprivation as well as the broader limits of social planning and state welfare Crucially it also plots the shift in policy from an emphasis on achieving statutory service efficiencies and rolling out social development programmes towards an ever greater stress on regeneration and support for private capital as the solution to transforming the inner city

Planning Democracy Nikhil Menon,2022-03-31 The Indian planning project was one of the postcolonial world s most ambitious experiments Planning Democracy explores how India fused Soviet inspired economic management and Western style liberal democracy at a time when they were widely considered fundamentally contradictory After nearly two

centuries of colonial rule planning was meant to be independent India's route to prosperity In this engaging and innovative account Nikhil Menon traces how planning built India's knowledge infrastructure and data capacities while also shaping the nature of its democracy He analyses the challenges inherent in harmonizing technocratic methods with democratic mandates and shows how planning was the language through which the government's aspirations for democratic state building were expressed Situating India within international debates about economic policy and Cold War ideology Menon reveals how India walked a tightrope between capitalism and communism which heightened the drama of its development on the global stage **Journal** Royal Institution of Chartered Surveyors,1921 Vol 24 34 include the Institution's Transactions v 77 87

Why Planning Does Not Work? Tumsifu Jonas Nnkya,2007 Lack of transparency and accountability in the planning practice allow for misuse and abuse of the planning system to serve the interests of the more powerful and influential groups including those entrusted with the powers of planning The outcomes of a non inclusive non transparent and insensitive planning include insecurity of land tenure rights and subsequently investments in land poverty informal land subdivision and building unplanned spatial growth and endless conflicts in land development These are detrimental to the residents and erode their trust and confidence in the government It takes an organized informed confident and courageous group of residents or community to reject the non inclusive form of planning and cause adoption of inclusive and collaborative planning that allows them space in the planning process The achievement of such an organized group a turn towards democratic planning practice leads to a conclusion that informed organized confident and courageous civil society is a pillar of democracy This book therefore argues that ineffective planning results among other things from defective land policy and legislation and planning inability to recognize and make use of opportunities for shaping the built environment **The**

Town Planning Review ,1915 **Transactions** Royal Institution of Chartered Surveyors,1922 **The City Builders** Susan S. Fainstein,2001 This revised edition examines major redevelopment efforts in New York and London to uncover the forces behind these investment cycles and the role that public policy can play in moderating market instability It chronicles the progress of three development projects in New York and three in London *United States of America V. Harrison* ,1994

Planning the Twentieth-Century City Stephen V. Ward,2002-04-03 This book reveals the complex interplay of planning ideas and practices between local national and international levels throughout this century The book moves from German zoning the aesthetics of grand urban and landscape design from France and the USA and the utopian English idea of the garden city through to the dynamism of the Asian tiger cities and the environmental ideology of the late 20th century It creates an international body of knowledge and expertise With case material from major cities in Western Europe North America Australia and Asia this book charts the changing centres of influence in planning and identifies the cities which will lead the way in the next century **The Roberts Report** John Lewis Roberts,John Roberts,1999 **Planning for Recovery** ,1993 **Environmental Planning, 1939-1969: Cullingworth, J.B. New towns policy** J. B. Cullingworth,Gordon Emanuel
