When the Impossible Happens Stanislav Grof, 2009-12-21 Feelings of oneness with others nature and the universe Encounters with extraterrestrials deities and demons Out of body experiences and past life memories Science casts a skeptical eye But Dr Stanislav Grof the psychiatric researcher who cofounded transpersonal psychology believes otherwise When the Impossible Happens presents Dr Grof s mesmerizing firsthand account of his fifty year inquiry into waters uncharted by conventional psychology an odyssey that will leave you questioning the very fabric of your existence From the first LSD session that gave Dr Grof a glimpse of cosmic consciousness to his latest work with Holotropic Breathwork When the Impossible Happens explores fascinating experiments in astral projection remarkable tales of synchronicity memories of birth and prenatal life the survival of consciousness after death and much more Here is an incredible opportunity to journey beyond ordinary consciousness guaranteed to shake the foundations of what we assume to be reality and sure to offer a new vision of our human potential as we contemplate When the Impossible Happens STANISLAV GROF M D PH D One of the founders and chief theoreticians of transpersonal psychology Dr Grof is the president of the International Transpersonal Association and a professor of psychology at the California Institute of Integral Studies and the Pacifica Graduate Institute His numerous books include Beyond the Brain and Psychology of the Future [Trials](#) William Robert, 2010 What does it mean to be called human How does this nomination affect or effect what it means to be called divine This book responds to these related questions in intertwined explorations of the passionate trials examinations tests and ordeals of Antigone and Jesus Impelled by her love of the impossible Antigone crosses uncrossable boundaries transgresses norms of kinship and mortality confounds distinctions of nature and culture and in the process unearths and critiques the sexism implicit in humanism Antigone thus disrupts humanist traditions stretching from Sophocles to Martin Heidegger traditions that would render her subhuman or inhuman She survives these exclusions

and engenders a new mode of humanity one that destabilizes classic oppositions of life and death and affirms mortal finitude in the face of the future's unforeseeability. This new mode of humanity offers a new way of considering Jesus whom Christianity identifies as human and divine. Building on his reading of *Antigone*, the author through a close reading of Mark's gospel focused on Jesus' cry of abandonment from the cross shows that to refigure humanity is also to refigure divinity and their relation. In the first extended treatment of Jean-Luc Nancy's *Corpus* in English, the author draws on the theoretical insights of Jacques Derrida and Nancy to propose an innovative account of Jesus' humanity and divinity, one that can contribute to religious understandings of embodiment and prayer and can open avenues of inquiry into tragedy, sexual difference, posthumanism, and politics. By pairing *Antigone* and Jesus and engaging the work of Judith Butler, Simone Weil, Jean-Louis Chrétien, and Dominique Janicaud, this book constructively participates in interdisciplinary conversations at the nexus of religious, philosophical, literary, and gender studies.

Abolishing Freedom Frank Ruda, 2016. Pushing back against the contemporary myth that freedom from oppression is freedom of choice, Frank Ruda resuscitates a fundamental lesson from the history of philosophical rationalism: a proper concept of freedom can arise only from a defense of absolute necessity, utter determinism, and predestination. *Abolishing Freedom* demonstrates how the greatest philosophers of the rationalist tradition and even their theological predecessors—Luther, Descartes, Kant, Hegel, Freud—defended not only freedom but also predestination and divine providence. By systematically investigating this mostly overlooked and seemingly paradoxical fact, Ruda demonstrates how real freedom conceptually presupposes the assumption that the worst has always already happened in short fatalism. In this brisk and witty interrogation of freedom, Ruda argues that only rationalist fatalism can cure the contemporary sickness whose paradoxical name today is freedom.

When the Impossible Happens Stanislav Grof, Ph.D., 2021. The legendary researcher Stanislav Grof shares his most memorable encounters with the mysteries of human consciousness and non-ordinary realities in a new updated edition, *Psychedelic Awakenings: Out of Body and Near-Death Experiences*. Archetypal forces, deities, and shamanic healings—conventional science casts a skeptical eye. But Dr. Stanislav Grof, the psychiatric researcher who co-founded transpersonal psychology, believes otherwise. *When the Impossible Happens* presents Dr. Grof's astonishing firsthand recollections spanning his decades of inquiry into waters uncharted by the materialist worldview. From his first LSD session that gave him a glimpse of cosmic consciousness to his latest work with Holotropic Breathwork, this groundbreaking explorer's incredible yet true stories will enthrall readers with insights and actual events that shed light on the wonder and significance of impossible coincidences, evidence-supported memories from prenatal life, past lives, and our ancestors, living, dying, and beyond the survival of consciousness after death, compelling cases of psychic phenomena, and much more. *When the Impossible Happens* invites us on a kaleidoscopic odyssey into our vast and untapped potentials and the true nature of reality itself. This updated edition includes a new chapter on synchronicities and psychedelics research with a new foreword by Dr. James Fadiman.
