The Ancient Wisdom of Tao Jeffrey Pine, 2024-09-10 Modern Taoism The ancient way to a good life today This book was written to benefit those who know little about Taoism and want to learn more And it was specially written to benefit those who want to learn how to use Modern Taoism to improve their lives today because it would be a better world if more people did Think of it as Taoism 101 for modern times but more pleasant to read than a textbook The Ancient Wisdom of Tao broadly covers the entire subject of Classical Taoism including its history the Tao Te Ching of Lao Tzu and a variety of selected stories from the books of Chuang Tzu and Lieh Tzu all written to be accurate of the message but easy to understand And it purposely omits the magic and ritual of the Religious Taoism of later centuries The section on Modern Taoism was created by sorting out topics in the writings of the three ancient Taoist sages by subject and exploring each by blending in a little of today's science where applicable and by better defining a few key terms By that means the ancient wisdom of Tao transforms to also become a modern wisdom of Tao as valuable for us in understanding our lives today as it was for the people living in the Yellow River Valley more than two thousand years ago Reading this book will help you understand yourself and your part in the world around you the Tao much more realistically and because of it you are likely to find yourself happier and more effective at everything you decide thereafter to do If that might help you have a better life buy a copy of The Ancient Wisdom of Tao today and read and learn from it as soon as you get the chance

The Tao Speaks Zhizhong Cai, 1995. The centuries-old wisdom of the Tao as told through the profoundly wise and delightfully entertaining illustrations of Tsai Chih Chung. In *The Tao Speaks*, Tsai Chih Chung brilliantly retells through his enchanting and irreverently humorous cartoon panels the two thousand-year-old text of the Tao Te Ching, the inspiring classic upon which Taoism is based. Attributed to the great Chinese philosopher Lao Tzu, the Tao Te Ching has attracted generations of followers from across the world to its simple tenets of modesty, peace, and realism. According to Lao Tzu, "If we are at peace with ourselves and the world around us, success will come unsought. Advocating poise, serenity, and complete assurance, Lao Tzu teaches men and women to work with nature rather than resist it." *The Tao Speaks* offers the centuries-old wisdom of the Tao to modern readers searching for new ways to bring meaning to life. As with Tsai Chih Chung's previous books, the original Chinese notes are contained in the margins of each page as an aid to scholars and Chinese-speaking readers. Tsai Chih Chung's books are awe-inspiring; his line is elegant, his characters are sharply drawn, his humor is sly and appropriate, and his subject is profound. This is cartooning of the highest order.

[The Greatest Wisdom Ever Written](#) James J. Fairlie, 2018-06-05. The Tao Te Ching, which translates to "The Great Way," is a short verse text written 2500 years ago by Lao Tzu, who is the central figure of the religion Taoism that has hundreds of millions of adherents all around the world. The Tao Te Ching is considered by many to be the greatest teaching on wisdom, spirituality, and enlightenment ever to be written. Over the years, the author has read from many confused people discussing the Tao Te Ching and noticed time and time again that the deeper and more profound truths Lao Tzu attempts to teach are often misunderstood or missed altogether. To be able to understand the Tao, you must come to understand the true nature of reality and your self. This book works its way through many significant verses.

of the Tao Te Ching and demonstrates an intimate understanding of the text explaining the true meaning behind Lao Tzu's words. It also elaborates on the life-changing philosophical or spiritual realizations necessary to understand and embody these teachings. Within this book are clear and enlightening answers to the elusive mysteries of the Tao including questions like: What is the Tao? What is enlightenment really? How do you achieve it? What is the nature of reality? What happens after death? What does it mean to be free of desire? Why is knowledge described as destructive? Why should you care? The author does not confuse the spiritual teachings of Lao Tzu with a view of the natural world as other teachers often do but explains the incredible epiphanies of self-realization contained in the Tao Te Ching which are actually clearly describing the qualities and workings of your inner being. Herein lies the advice that is necessary to reach oneness, heaven, or spiritual enlightenment in this life.

And the first thing to be done is to see what is predicated of this mysterious Thing: how it is described, with what attributes it is credited, where it is to be found, whence it sprang, how it exists, and what its functions are. Then we may find ourselves in a position to discover what it is that answers to these particulars, and profanely to give a name to that which its preachers themselves declared must be forever nameless.
