**The Self-Disclosure of God** William C. Chittick, 2015-03-26 The Self Disclosure of God offers the most detailed presentation to date in any Western language of the basic teachings of Islam's greatest mystical philosopher and theologian. It represents a major step forward in making available to the Western reading public the enormous riches of Islamic teachings in the fields of cosmology, mystical philosophy, theology, and spirituality. The Self Disclosure of God continues the author's investigations of the world view of Ibn al Arab, the greatest theoretician of Sufism and the seal of the Muhammadan saints. The book is divided into three parts dealing with the relation between God and the cosmos, the structure of the cosmos, and the nature of the human soul. A long introduction orients the reader and discusses a few of the difficulties faced by Ibn al Arab's interpreters. Like Chittick's earlier work *The Sufi Path of Knowledge*, this book is based primarily on Ibn al Arab's monumental work *al Futu al Makkah*. The Meccan Openings. More than one hundred complete chapters and subsections are translated, not to mention shorter passages that help put the longer discussions in context. There are detailed indices of sources, Koranic verses, and hadiths. The book's index of technical terminology will be an indispensable reference for all those wishing to delve more deeply into the use of language in Islamic thought in general and Sufism in particular.
