Mastering self often desired seldom achieved and easier said than done It is an arduous lifelong process of becoming A  
journey not a destination A direction not perfection A discipline not a diversion Mastering self does not naturally exist in the  
human condition It must be cultivated by lifelong learning Mastering Self is for critical thinkers wanting to become what they  
should be It provides a paradigm to clarify your core ethos and code of conduct a template to evaluate your fundamental  
beliefs principles and values a lens to view your world a grid to filter your thoughts decisions and actions a linchpin to  
stabilize your life a blueprint to comprehend your bearing in life's journey and destination and a benchmark to measure  
significance in your life Mastering Self presents relevant principles and commentary applicable to leading self and others  
Understanding them strengthens interpersonal relationships Embracing them increases personal influence Practicing them  
benefits anyone responsible for other people A comprehensive reference for leaders this handbook is based on timeless  
truths and virtues for reference reflection or contemplative study It provides a biblical worldview for perspective and old  
school insight for today's culture Mastering Self includes two primers with commentary white papers regarding issues in life  
the authors Scot heritage influence and memoirs The primers are written from a practitioner's perspective gained from  
twenty four years leading three police departments teaching command officers at police academies and teaching leadership  
at a university The white papers juxtapose personal worldview and ethos with God's Word and manner of living They reveal a  
deep conviction that God counsels and confides in those who fear Him Ps 25 14 and honors those who honor Him 1 Sam 2 30  
These papers result from reading teaching writing and pondering to keep my heart with all diligence regarding issues in life  
Prov 4 23 often in the counsel chamber of God This work is a labor of love and pertains to life's ultimate question God or self

Pritchard,1996 The public outcry for a return to moral education in our schools has raised more dust than it s dispelled Building upon his provocative ideas in On Becoming Responsible Michael Pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education
