Science, Technology, and Democracy Daniel Lee Kleinman, 2000-09-28 Activists scientists and scholars in the social sciences and humanities explore in productive dialogue what it means to democratize science and technology The contributors consider what role lay people can have in a realm traditionally restricted to experts and examine the socio economic and ideological barriers to creating a science oriented more toward human needs Included are several case studies of efforts to expand the role of citizens including discussions of AIDS treatment activism technology consensus conferences in Europe and the United States the regulation of nuclear materials processing and disposal and farmer networks in sustainable agriculture and examinations of how the Enlightenment premises of modern science constrain its field of vision Other chapters suggest how citizens can interpret differing opinions within the scientific communities on issues of clear public relevance

Theories of Informetrics and Scholarly Communication Cassidy R. Sugimoto, 2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research including both the evaluation of individuals and national assessment exercises Yet researchers and practitioners in this field have lacked clear theories to guide their work As early as 1981 then doctoral student Blaise Cronin published The need for a theory of citing a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based More than three decades later the time has come to reach out the field again and ask how they have responded to this call This book compiles the foundational theories that guide informetrics and scholarly communication research It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship citing and impact

Innovation in Cultural Systems Michael John O'Brien, Stephen Shennan, 2010 Leading scholars offer a range of perspectives on the roles played by innovation in the evolution of human culture In recent years an interest in applying the principles of evolution to the study of culture emerged in the social sciences Archaeologists and anthropologists reconsidered the role of innovation in particular and have moved toward characterizing innovation in cultural systems not only as a product but also as an evolutionary process This distinction was familiar to biology but new to the social sciences cultural

evolutionists from the nineteenth to the twentieth century had tended to see innovation as a preprogrammed change that occurred when a cultural group needed to overcome environmental problems In this volume leading researchers from a variety of disciplines including anthropology archaeology evolutionary biology philosophy and psychology offer their perspectives on cultural innovation The book provides not only a range of views but also an integrated account with the chapters offering an orderly progression of thought The contributors consider innovation in biological terms discussing epistemology animal studies systematics and phylogeny phenotypic plasticity and evolvability and evo devo they discuss modern insights into innovation including simulation the random copying model diffusion and demographic analysis and they offer case studies of innovation from archaeological and ethnographic records examining developmental behavioral and social patterns Contributors Andr Ariew R Alexander Bentley Werner Callebaut Joseph Henrich Anne Kandler Kevin N Laland Daniel O Larson Alex Mesoudi Michael J O Brien Craig T Palmer Adam Powell Simon M Reader Valentine Roux Chet Savage Michael Brian Schiffer Jeffrey H Schwartz Stephen J Shennan James Steele Mark G Thomas Todd L VanPool **Annual Review of Information Science and Technology** Blaise Cronin,2007 ARIST published annually since 1966 is a landmark publication within the information science community It surveys the landscape of information science and technology providing an analytical authoritative and accessible overview of recent trends and significant developments The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives While ARIST continues to cover key topics associated with classical information science e g bibliometrics information retrieval editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities [Encyclopedia of Creativity](#) ,2011-05-20 The first edition of the successful Encyclopedia of Creativity served to establish the study of creativity is a field in itself Now completely updated and revised in its second edition coverage encompasses the definition of creativity the development and expression of creativity across the lifespan the environmental conditions that encourage or discourage creativity creativity within specific disciplines like music dance film art literature etc the relationship of creativity and mental health intelligence and learning styles and the process of being creative This reference also appeals to a lay audience with articles specifically on the application of creativity to business settings Available online via ScienceDirect and in limited print release Named a 2012 Outstanding Academic Title by the American Library Association s Choice publication Serves as a compendium of reviews of a number of domain specific areas such as acting dance expressive arts film food music religion science sports theater and writing Creativity and education are examined in articles about thought processes such as developmental trends in creative abilities and potentials the enhancement of creativity intelligence knowledge play prodigies programs and courses talent and teaching creativity Cognitive aspects of creativity can be investigated in articles about altered and transitional states analogies attention cognitive style divergent thinking flow and optimal experience metacognition metaphors problem finding
