Terror in Ireland Edgar O'Ballance, 1981 *Terror In Ireland* David Fitzpatrick, 2012-05-21 The practice of terror in revolutionary Ireland remains a highly controversial topic which seldom receives either balanced or dispassionate treatment This collection of essays is designed to illuminate the varied origins forms and consequences of terror whether practised by republicans or forces of the Crown It is the fifth production of the Trinity History Workshop an informal group of academic historians research students and undergraduates associated with Trinity College Dublin The Workshop's reputation was established in 1986 by its first collection *Ireland and the First World War* subsequently reissued by The Lilliput Press The current volume is dedicated to the memory of a distinguished former member the late Peter Hart whose studies of both revolutionary and counter revolutionary terror continue to arouse lively and sometimes intemperate debate Several chapters emerged from papers delivered at a one day conference in Trinity College in November 2010 while others have been specially commissioned for this book The contributors including gifted postgraduate and undergraduate students as well as prominent historians tackle many facets of terror such as Bloody Sunday the Kilmichael Ambush and the Sack of Balbriggan Scholars students political activists and all those interested in the Irish Revolution will find both provocation and enlightenment in this book Its purpose is not to assign blame to one party or another but to offer varied perspectives on one of the most contentious periods of Irish history The book is enhanced by illustrations maps and charts

others were bombers skilled in designing the most sophisticated explosive devices and booby traps Another more powerful group of trigger men were the influential figures in the shadows who were experts in motivating the killers under their control All of these men whether they squeezed the trigger on a high powered rifle set the timer on a bomb or used their authority to send others out to commit horrific and unspeakable acts of cruelty are featured in this book *The Trigger Men* takes the reader inside the labyrinthine world of terrorist cells and highly classified counter terrorism units of British Military Intelligence The individual stories are described in gripping unflinching detail and show how the terrorists carried out their ghastly work Dillon also explores the ideology of the cult of the gunmen and the greed and hatred that motivated assassins in their killing sprees There are penetrating insights into the mindset of the most infamous assassins their social and historical conditioning their callousness

Mullen,2026-03-06 Irish literary studies has long subordinated the nineteenth century to the experimental triumphs of Irish modernism variously dismissing its achievements as too indebted to British forms to be truly Irish too transparently rooted in Irish history and politics to be globally or universally relevant and too aesthetically weak to be worth close formal analysis *Race Violence and Form Reframing Nineteenth Century Ireland* challenges these critical orthodoxies employing new methodological frameworks that expand how we understand the global racial formal periodized and political scope of nineteenth century Irish literature The essays in the collection move fluidly between history and form archive and imagination past and present and Ireland and elsewhere as they re examine the genres of nineteenth century Ireland coin new aesthetic categories and theorize Ireland s mobile place in world networks Focusing as much on how literary criticism has marginalized and delimited nineteenth century Irish literature as on the new more expansive literary and cultural histories that this literature catalyzes the collection argues that the project of re reading nineteenth century Ireland challenges accepted methodologies imperial hierarchies and narratives of exceptionalism whose reach extends far beyond

Ireland itself Race Violence and Form thus not only offers exciting new directions for Irish studies scholarship but also models an approach to nineteenth century literary studies that de emphasizes insularity in favor of global collaborative and open ended imagining Real Pictures of Clerical Life in Ireland John Duncan Craig,1875 **The Financing of Terrorism in Northern Ireland** Great Britain.
