*Sustainable Construction* Charles J. Kibert, 2012-10-03 The classic reference for high performance green building delivery systems No longer just a buzzword sustainable construction is going mainstream and soon will be the norm Revised to reflect the latest developments of the U S Green Building Council s Leadership in Energy and Environmental Design LEED rating system and other tools *Sustainable Construction Green Building Design and Delivery Third Edition* guides construction and design professionals through the process of developing commercial and institutional high performance green buildings in today s marketplace Charles Kibert provides an introduction to green building covering the theory history and state of the industry as well as best practices in building procurement and delivery systems From green

building and Green Globes assessments to building hydrological systems and materials and product selection this comprehensive text covers all of the factors involved with sustainable construction In a clear and accessible writing style Kibert addresses issues so that the reader can think critically and independently as part of the cutting edge in green building The Third Edition includes up to date coverage of The latest developments leading up to LEED version 4 Carbon neutral design and carbon accounting Green Globes and international building assessment systems The Living Building Challenge Environmental product declarations EPDs as the norm for green building products The trends in net zero energy building design and policies Broad enough to cover the needs of faculty and students and detailed enough to serve as a professional reference Sustainable Construction Third Edition is a must for the builder owner and construction manager looking to take advantage of the opportunities in this rapidly evolving field the designer looking to be LEED certified or anyone interested in sustainability

**Marketing Green Buildings** Jerry Yudelson,2020-12-17 Engineers architects and contractors seeking to expand their involvement in the green buildings market need a firm grounding in the marketing strategies and tactics which are being used most successfully in this specialized and growing field This book is intended to serve as an effective tool for professional green building enthusiasts and advocates in presenting green design features sustainable strategies and new products to the potential green building client The author addresses key questions such as How is green building marketing different from other types of professional service marketing What tools and techniques from conventional marketing can be used to greater effect in marketing green buildings What is the size and potential of the green buildings market And how should a firm position itself to succeed in this growing marketplace You ll find clear descriptions of successful strategies and approaches to marketing and selling green building related services as well as up to date information on the role of LEED in green building projects

**Architect and Engineer Liability: Claims Against Design Professionals, 4th Edition** Sido,2013-10-23 Now you can keep construction design exposure to a minimum Prepared for design and construction professionals and their attorneys this comprehensive up to date resource is written by eminent authorities in the field Architect and Engineer Liability Claims Against Design Professionals Fourth Edition details all relevant topics risk management alternative dispute resolution trial conduct handling shop drawings insurance and surety and more You ll get straightforward answers to all your legal questions as well as examples of the valuable lessons learned by leading design and construction experts

**Climate Finance** Fei Wu,Dayong Zhang,Qiang Ji,2024-07-27 This book focuses on the frontier issues in climate finance and aims to develop a general framework to understand the financial pathways towards a successful energy transition It builds upon the general descriptions of the current status and future challenges towards carbon neutral targets and then bring forward a combination of theoretical and empirical analysis on the critical issues related to climate finance Estimated by the International Energy Agency IEA trillions dollars of investment in energy sector are needed to achieve net zero emission scenario It provides a huge opportunity for our economies meanwhile creates considerable

challenges to the existing system Both financing and investment in such an unprecedented scale cannot possibly be satisfied by the current financial architecture which creates demands for restructuring in the financial sector developing innovative financial instruments building mechanisms to attract private investment and establishing human resources to facilitate climate financing and investment This area is essentially interdisciplinary which requires a fundamental reconsideration of standard approaches Aiming to satisfy the broad interests from both academia and policymakers the contents of this book range from general discussions on critical issues to advanced statistical analyses on key topics Authors hope to bring forward a general picture about climate finance and facilitate the demands for both academic research and policymaking It should also provide a good guidance for graduate students interested in this subject The main contents of this book are based on solid research outcomes but with clear policy relevance The book combines finance theory and practices in both financial markets and energy sectors to reflect the complex nature of financing for energy transition While the materials can provide useful knowledge to policymakers the book can also inspire new research ideas in the relevant area

**Toward a PFAS-free Future** Simona A Bălan,Thomas A Bruton,Kimberly G Hazard,2023-11-17 Perfluoroalkyl and polyfluoroalkyl substances PFASs are extensively used in consumer products despite their high persistence and other hazards The risks posed by this chemical class to human health and the environment which are increasingly becoming understood have triggered regulation and policy changes However safer alternatives to these technically effective materials and methods to discover and use those alternatives are still under development Remediation of PFAS contaminated sites will not solve the growing worldwide pollution but substitution with safer substances at the formulation and manufacturing phases will at least abate the flow of PFASs into our bodies and environment Introducing safer alternatives to some of the PFASs of concern used in select industry sectors this book informs the reader about the processes of chemical hazard and alternatives assessment that can foster innovation It is a valuable resource for both green chemists and industrial chemists interested in how they can make their products safer without compromising on function

**Brick and Block Masonry** Claudio Modena,F. da Porto,M.R. Valluzzi,2016-11-03 Brick and Block Masonry Trends Innovations and Challenges contains the lectures and regular papers presented at the 16th International Brick and Block Masonry Conference Padova Italy 26 30 June 2016 In an ever changing world in which innovations are rapidly implemented but soon surpassed the challenge for masonry the oldest and most traditional building material is that it can address the increasingly pressing requirements of quality of living safety and sustainability This abstracts volume and full paper USB device focusing on challenges innovations trends and ideas related to masonry in both research and building practice will prove to be a valuable source of information for researchers and practitioners masonry industries and building management authorities construction professionals and educators
