Reading Nietzsche through the Ancients Matthew Meyer, 2014-07-28 Nietzsche s work was shaped by his engagement with ancient Greek philosophy Matthew Meyer analyzes Nietzsche s concepts of becoming and perspectivism and his alleged rejection of the principle of non contradiction and he traces these views back to the Heraclitean Protagorean position that Plato and Aristotle critically analyze in the *Theaetetus*

and *Metaphysica IV* respectively At the center of this Heraclitean Protagorean position is a relational ontology in which everything exists and is what it is only in relation to something else Meyer argues that this relational ontology is not only theoretically foundational for Nietzsche's philosophical project in that it is the common element in Nietzsche's views on becoming perspectivism and the principle of non contradiction but also textually foundational in that Nietzsche implicitly commits himself to such an ontology in raising the question of opposites at the beginning of both *Human All Too Human* and *Beyond Good and Evil*
