Transition Explained Earth Questions Spirit Answers:

The Transition, Explained Frances Bird, 1988 Gives an insight into the nature of life awaiting one in the spirit world after having passed through the transition called death

Handbook to the Afterlife Pamela Rae Heath, Jon Klimo, 2011-07-05 Two seasoned experts with decades of experience working with channeled material describe the various stages of life after death Just as life itself has different stages of growth and development so does the afterlife In this useful handbook authors Pamela Rae and Jon Klimo demonstrate how dying and rebirth are much like life continuous processes Beginning with the moment of death itself progressing through different transitional stages and ending with the return of spirits to the physical plane they define the purposes and pitfalls of each stage They look at the kinds of adjustment problems that occur in each phase and how spirits can be helped to move forward Questions of pain and emotional state at the time of death karma and reincarnation are sensitively addressed The book includes practical techniques for opening communication with those who have passed on to the other side While of interest to anyone seeking a general overview of the subject **Handbook to the Afterlife** is particularly useful for those dealing with spirits who have not moved on such as ghosts

Channeling Jon Klimo, 1998-04-17 In this study of channeling earlier called spirit communication or mediumship Klimo who teaches at Rosebridge Graduate School in the San Francisco Bay Area writes with clarity about the communication of information to or through a physically embodied human being from a source on some other level or dimension of reality other than the physical as we know it He profiles recent channels and their sources goes back to preliterate societies and the advent of monotheism and identifies as channels such figures as Moses Solomon Muhammad Merlin Nostradamus Swedenborg and Edgar Cayce He discusses the sorts of people who are channels kinds of information channeled sources of information channeled and varieties of channeling like clairvoyance and automatic writing According to Klimo few people tap into their abilities to perform channeling and for those who think they can he serves as guide

Suicide Jon Klimo, Pamela Rae Heath, 2006-06-12 This provocative study explores what happens to those who commit suicide Drawing on communications from the spirits of more than 100 successful suicides it offers an intriguing look at what the dead themselves say about suicide its repercussions and their experiences in the afterlife Bringing together the channeled messages of three types of suicide traditional suicide assisted suicide and the suicide mass murder adopted by terrorists the book covers a wide range of topics including why people commit suicide what it is like to cross over adjustment problems what suicides would say to those left behind and what they would tell others thinking of taking their own lives Additionally the book conveys powerful messages from suicide bombers warning potential terrorists of the serious karmic consequences that await them For anyone contemplating suicide or euthanasia the book offers profound sometimes unsettling insight into the ramifications of these acts
