Truth And Existence:

SANATAN DHARMA The Law of Eternity Rabindranath Mohanty,2024-09-16 Most of us are not aware that we are all governed by a Law called the Law of Eternity All changes internal and external are caused and conditioned by this Law We are also unaware of the Omnipotent Creator who is the maker of this Law This Law is intended for the progress and well being peace happiness and bliss of all beings in this Creation It is everybody s duty to observe this Law to further the Creator s cause The Law of Eternity manifests itself as various lower truths in the physical world cognizance of which comes under the ambit of physical science or scientific truths Whether it is the law of gravitation or properties of space air fire water and minerals or the living beings in whom the digestive system respiratory system blood circulation system etc are embedded all are manifestations of the Law of Eternity That means those are not man made Man must try to comprehend that behind the lower truths operative in the physical planes there are higher truths which govern the lower truths Those higher truths are the prerogatives of the Almighty In other words those are God s Will or the manifestations of the Absolute Consciousness The Absolute Truth manifests as the relative truths in the subtle and gross Creation God alone is the only Reality The Journal of Philosophy, Psychology and Scientific Methods ,1912 **The Inner Teachings of the Philosophies and Religions of India** Ramacharaka,1909 **Philosophy, Who Needs It?** Jason D. Crowder,2016-03-02 Too often skeptics charge Christians with having a blind faith Unfortunately believers have added fuel to the charges of skeptics by speaking of their faith illogically But the Christian faith is not a blind faith In fact biblical faith is never a blind irrational faith Christianity rests firmly on the stone that was rejected by the builders which has become the cornerstone Jesus Christ Acts 4 11 Living biblically requires thinking biblically just as to think biblically entails to live biblically as Winfried Corduan notes in the Foreword As followers of Christ believers cannot separate biblical thinking and biblical living These two behaviors are eternally connected not only in the person of Jesus Christ but they stem from the eternal being of God the Father and his eternal truth Christ mandates that his followers love God with their entire being heart soul mind and strength Mark 12 30 How are believers to go about living out this biblical mandate Christian faith is a warranted belief This is why it is so essential that Christians recognize the value and importance of philosophy and its proper place in Christendom and in the Christian s walk *The Works of Aurelius Augustine: Writings in connection with the Manichaeian heresy, translated by Richard Stothert. 1872* Saint Augustine (of Hippo),1872 **Writings in Connection with the Manichaeian Heresy** Saint Augustine (of Hippo),1872 **Abū'l-Barakāt al-Baghdādī's Scientific Philosophy** Moshe Pavlov,2016-10-04 Ab l Barak t is often considered one of the most comprehensive philosophers of the Arabic Jewish milieu in the medieval age His extensive and unique philosophical theories especially his theories in the particular sciences were seen as a major challenge for the traditional conceptions of the Aristotelian school of thought during and after this period Ab l Barak t al Baghd d s Scientific Philosophy explores the core material of Ab l Barak t s scientific studies found in his magnum opus the Kit b al Mu tabar The

book then locates these scientific theories within Ab l Barak t s philosophy more widely Whilst providing a comprehensive critique of ancient philosophy including the work of Aristotle certain affinities between Ab l Barak t s work and that of more modern scientific conceptions are also examined Containing vast amounts of previously untranslated text Ab l Barak t al Baghd d s Scientific Philosophy sheds new light on the philosopher s scientific theories particularly with regards to his logical conceptions For this reason the book will be a valuable resource for students and scholars of Jewish and Islamic Philosophy whilst the scientific material will appeal to those studying the history of science
