Morton, 2016-08-08 Within this quartet of books that I have titled The Four Seasons of The Heart I will share the deepest pivotal parts of my journey as a recovering alcoholic addict and survivor of childhood abuse with you One day at a time I have lived clean and sober consistently since 1995 However allowing myself to emotionally grow by not just giving but also receiving love and to genuinely feel deserving of my life's hard earned rewards has presented many challenges Please allow me as we journey through these pages together to suggest ways that we can heal our heart dust off our doubt intercept self sabotage and invest in self respect **Through Life's Door** Dolores L. Bell, **Becoming Yourself** Alison Miller, 2018-05-11 In contrast to the author's previous book Healing the Unimaginable Treating Ritual Abuse and Mind Control which was for therapists this book is designed for survivors of these abuses It takes the survivor systematically through understanding the abuses and how his or her symptoms may be consequences of these abuses and gives practical advice regarding how a survivor can achieve stability and manage the life issues with which he or she may have difficulty The book also teaches the survivor how to work with his or her complex personality system and with the traumatic memories to heal the wounds created by the abuse A unique feature of this book is that it addresses the reader as if he or she is dissociative and directs some information and exercises towards the internal leaders of the personality system teaching them how to build a cooperative and healing inner community within which information is shared each part's needs are met and traumatic memories can be worked through successfully Cultivating the Spirit Alexander W. Astin, Helen S. Astin, Jennifer A. Lindholm, 2010-10-26 Cultivating the Spirit THIS GROUNDBREAKING WORK IS BASED on a five year study of how students change during the college years and the role college plays in facilitating the development of their spiritual qualities Students the authors argue grapple with the big questions in life Who am I What are my values Do I have a mission in life Why am I in college What kind of person do I want to be What sort of world do I want to help to create Their answers to these questions help determine their academic and career choices and are tied to the development of personal qualities such as

empathy caring and social responsibility The study finds that while students religious engagement declines during college at the same time they become substantially more caring tolerant connected with others and actively engaged in a spiritual quest Spiritual growth also enhances academic performance leadership development and satisfaction with college The study provides strong evidence pointing to specific experiences during college that can contribute to students spiritual growth The need for spiritual development in college is apparent Two thirds of the students in the study express a strong interest in spiritual matters well over half report that their professors never encourage discussions of religious or spiritual matters and about the same proportion report that professors never provide opportunities to discuss the purpose and meaning of life Cultivating the Spirit aims to raise the awareness of academic administrators faculty and the public at large to the vital role that spirituality plays in student learning and development Throughout the book the authors identify strategies for enhancing students development and encourage the academy to give greater priority to the spiritual aspects of students educational and personal development
