patterns by eating different foods in different ways can be the first step in breaking those old unneeded patterns. Patterns in your diet dictate your physical and for many your emotional health. Patterns have the power to create a new you and destroy the old one. By using these recipes you enable yourself to change your old patterns, recreating yourself to find a more vibrant, more healthful you. By changing your eating patterns and foods, you will not only improve your body and lose weight, but you will also feel better mentally and emotionally. Don't be a statistic. Currently, the CDC reports that 76 million people in the United States are obese. That is more than the population of California, Oregon, Washington State, Arizona, Nevada, Idaho, and New Mexico combined. Being obese is defined by a BMI greater than 25 and increases the risk of diabetes 20 times and the risk of heart disease by 32%. Furthermore, a review of 15 studies published in the Archives of General Psychiatry found that obese people have a 55% higher risk of developing depression. The list of these statistics can go on, but it is evident that obesity is on the rise in the United States. Furthermore, we know scientifically that obesity contributes to specific disease states like diabetes, heart disease, cancer, and stroke. We can also see the significant effect that being overweight can have on your mental health. In our professional experience, we can absolutely say this is all true. Isn't it time to change? Right now. Today. Get inspired and get started. We know you can do this. Enjoy the process of making this change and continue to uncover your best you.

**In the FLO** Alisa Vitti, 2020-01-28. From the bestselling author of *WomanCode* comes a life-changing biohacking program for women's health and well-being. Use your natural 28-day cycle to optimize your productivity, fitness, wellness, relationships, and longevity. Women have an important biological rhythm they experience every month that affects cognitive function, weight, sex drive, energy, and mood. It is essential to be aware of and take care of this rhythm, but it has been widely ignored by medical, nutrition, and fitness research. So as women, we diet, we deprive, and we cram as much as possible into our day, striving to accomplish impossible to-do lists and scheduling our lives based on a 24-hour time cycle, ignoring the intuitive time our bodies naturally keep: a monthly cycle with four hormonal phases that offer incredible advantages. *In the FLO* presents a revolutionary 4-week solution to manage your energy and time according to your female biochemistry. By working with each phase, you'll support your hormones, unlock peak creativity and performance, and avoid burnout. You'll know exactly when to eat, certain foods, clear your social calendar, or ask for a raise, and you'll have the tools to do so, including meal plans and recipes for each phase, charts for phase-specific exercises, work tasks, and relationship activities, a daily planner that helps you align with your strengths in each phase, a biohacking toolkit for navigating period problems and hormonal birth control. Alisa Vitti, functional nutrition and women's hormone expert, bestselling author of *WomanCode* and founder of modern hormone healthcare company *FLOliving.com*, has been teaching women how to reclaim their rhythm for nearly twenty years and has witnessed the incredible rewards it offers, including losing stubborn weight, regaining energy, clearing skin, and minimizing PMS. By getting *In the FLO*, you'll get more done with less effort, you'll feel better consistently throughout the month, and you'll enjoy the freedom that comes with living on your own time. Experience
