TOWARD DISTANT SUNS

A bold, new prospectus for human living in space

T. A. HEPPENHEIMER
author of **COLONIES IN SPACE**

Foreword by Gerard K. O'Neill

The background of the cover is a detailed illustration of a futuristic, possibly extraterrestrial, landscape. The scene is set at night or dusk, with a deep blue sky. A large, bright, crescent moon dominates the upper center of the frame. To its right, a smaller, dimmer crescent moon is visible. The foreground is a rocky, uneven terrain. In the lower right, a man and a woman in futuristic, light-colored clothing are standing together, looking at a piece of equipment mounted on a tripod. The man is on the left, and the woman is on the right. In the lower left, there are several glowing, rectangular objects, possibly futuristic devices or components, resting on the ground. The overall atmosphere is one of exploration and discovery.
