The Changing Public Sector: A Practical Management Guide Malcolm Prowle, 2016-03-23 The public sector in the UK has undergone radical change over the last two decades. Consequently, managers and service professionals have had to adopt new ways of working and acquire a wide range of new managerial skills to deal with the changes that have taken place. The continuing process of change in the public sector also means that these managerial skills need to be continually maintained and developed. This book provides comprehensive coverage of public sector management approaches covering Strategy, Finance, Human resources, Marketing, Quality, Information systems. Thus, it provides managers, professionals, and students with a clear understanding of the main elements of each aspect of management as applied in public sector organizations. The book also outlines the ongoing changes which will impact on public sector organizations in the future and discusses the implications of these changes for public sector management methods.

The Changing Museum Clive Gray, 2022-11-30 Using the example of New Walk Museum, Leicester, and its collections, the complexity, multi-causality, and reasons for change in museums are examined and explained. The 170 years history of New Walk provides an original basis and innovative approach to be adopted towards explaining museum change. The book makes use of original interview and archive material to examine how and why social, economic, political, and professional developments affected the work that was undertaken in New Walk. The time span covered is much longer than is normal for a book on museum history and is longer than for almost all the national museums in the UK, with this allowing for a nuanced understanding of the causes and consequences of museum change over time. The problems and possibilities of undertaking museum history research are also discussed. Detailed examination of the ways in which a variety of societal developments fed into museum change is a key feature of the book. The book is aimed at all those with an interest in understanding how and why change affects museum practice and will be of interest to museum professionals, academics, and students in museum studies, history, politics, and sociology, as well to the general museum visitor who would like to discover more about the institutions that they visit.
