

Objective 3: Use Graphing to Identify Inconsistent Systems and Dependent Equations

- If the lines are different and intersect, the equations are independent, and the system is consistent. **One solution exists.** It is the point of intersection.

- If the lines are different and parallel, the equations are independent, and the system is inconsistent. **No solution exists.**

- If the lines coincide, the equations are dependent, and the system is consistent. **Infinitely many solutions exist.** Any point on the line is a solution.
