last a lifetime They need your help 92% of offenders were physically emotionally or mentally abused as children and 82% of
offenders were victims of molest Parents United treat ALL aspects of Child Sexual Abuse to stop the cycle All proceeds from
this book go to parents United to help stop the cycle Help a Child today **How to Abolish Child Sexual Abuse** Steve A.
Mizera,2013-10 This book looks at law enforcement officials who have been arrested and convicted during 2012 of either
possessing child pornography or sexually molesting children It is written by an ex sex offender in order to offer answers to
who molests children when and where how and why But the most important question answered is How is Child Sexual Abuse
to be Abolished From an early age we are taught to respect and trust police Most of us do But today we watch the evening
news or read that another policeman has molested a child or was caught with child pornography We begin to question our
reason to trust How is the molestation or the sexual abuse of children to be anticipated and stopped At the age of seventy
three I believe I have found answers to the questions who molests children where and when and how and why But most
important I offer recommendations on what must be done to prevent child molestation In contrast I examine and explain why
what is being done today is not working Really good computer hackers eventually get caught and go to prison Some then
offer their experience to corporations and get paid well to prevent hacking Those in favor of hiring hackers and the hackers
hoping to be hired will argue that it takes one to catch one However you don t see law enforcement agencies hiring former
murderers to help them catch violent criminals So It all comes down to a question of trust I was physically and mentally
abused as a child in an orphanage and sexually abused in a second orphanage I grew up to commit a similar despicable act
for which I was convicted and spent time in the notorious Folsom State Prison in California This book is part of my effort at
redemption I examine many of the news stories that shock those who hear or read that yet another trusted man with a badge
has violated that trust and destroyed a child s life In rehashing these news reports I am not anti police but I am anti child
sexual abuse Stopping Sexual Predators before they strike should be the primary focus in the effort to combat child
molestation It is not Society has determined to waste its resources dealing with predators after they cause damage to
children Although society is certainly justified in using precious resources to PUNISH predators after due process the ex sex
offender registries are ineffective and counterproductive They destroy more lives than they purport to save Instead society
should consider legislating mandatory sexual abuse awareness as early as the first grade Children need this protection It

should also consider registering adults who are responsible for the academic and spiritual education and recreation of children instead of using the millions of dollars it spends registering and monitoring former predators whose recidivism rate is extremely low Registration should detail the consequences for sexually abusing children Current Sex Offender registration causes unwarranted harm to families of former offenders It does not protect children from future harm In addition society should consider holding parents accountable when they fail to protect their children from predators The focus of this book is to arm children parents and others responsible for children by providing answers to the questions Who is molesting kids and why When and where are children molested How does molestation take place And most important what should be done to prevent this moral epidemic

Court of Appeal (2nd Appellate District). Records and Briefs California (State)., **Identifying Child Molesters** Carla Van Dam,2013-12-19 Stop abuse before it starts Identifying Child Molesters Preventing Child Sexual Abuse by Recognizing the Patterns of the Offenders will teach you to better protect children from potential child sexual molesters long before any abuse can actually occur Here you ll learn to recognize and understand the seemingly invisible steps that typically precede child sexual abuse These stories of molesters their families and their victims will enable you to more accurately see through a potential molester s charming demeanor and better protect the children in your life Understanding the behavior that molesters often exhibit when trying to obtain access to children is essential to protecting children from their advances By becoming familiar with this terrain you will find the courage and strength to decide what must be done and the skills to follow through with the necessary actions Such responses will appropriately curtail an offender s access to children and subsequent opportunities to molest Identifying Child Molesters will teach you how to recognize those who might molest how molesters typically charm adults how societal attitudes help to foster child sexual abuse what to do when encountering a potential molester what physical and emotional damage molestation can cause to victims how to graciously avoid potentially dangerous situations Identifying Child Molesters Preventing Child Sexual Abuse by Recognizing the Patterns of the Offenders clearly spells out the techniques that child sexual molesters so successfully use to charm adults into giving them access to children When these strategies are seen and understood adults can take much more direct responsibility for preventing child sexual abuse than was previously possible Anyone who lives or works with children needs to own this book The information you ll encounter in Identifying Child Molesters might startle you but it might also help you save the life of a child
