**Schleiermacher and Religious Feeling** Geoff Dumbreck,2012 Religious feeling lies at the heart of Schleiermacher s theology In his earliest monograph the *Speeches* he famously writes that religion s essence is neither thinking nor acting but intuition and feeling He portrays religious feeling as an eternal and universal state of consciousness which cannot be generated by individuals the world or anything within it but must have a transcendent whence namely God Yet his critics have often missed this point assuming that his emphasis on feeling makes religion transitory and individualistic This misinterpretation is furthered by philosophical psychological anthropological and popular understandings of feeling which characterise emotions as selfish and moods as inward looking This book traces the development of Schleiermacher s concept of feeling comparing the first edition of the *Speeches* with his later works especially *The Christian Faith* It points to a fundamental continuity in Schleiermacher s stance despite the increasing orthodoxy of his language and his growing interest in the collective feeling of the religious community Taking account of recent developments in psychology and philosophy this study sheds light on the elements of Schleiermacher s account that are tenable today clearing the way for future reappraisals of his theological project [The Religious Sentiment](#) Daniel Brinton,2021-12-02 *The Religious Sentiment* by Daniel G Brinton Published by Good Press Good Press publishes a wide range of titles that encompasses every genre From well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need
