The Revolution Against Evolution:

The Revolution Against Evolution Douglas B. Sharp, 1986 Revolution Against Evolution Douglas B. Sharp, 2023-01-16

This is the fifth edition of a classic book covering the modern revolution against Darwinian evolution. It was written by a long-time veteran of the movement pushing back against evolution. Sharp had the foresight to pioneer a website in 1995, www.rae.org, appropriately called Revolution Against Evolution when the use of this format was just in its infancy. Sharp's book covers not only the problems with evolution but also some of the problems with some of the creation alternatives. Creationism is a movement involving many diverse people, not all who agree with the details. Consequently, different schools of thought called models exist in the movement. For example, he covers the various Flood models that attempt to explain the global Flood of Noah's day. Although disagreement exists on the creation models, large agreement exists on the major scientific problems with evolution. Sharp does a good job summarizing this area. He shows that evolution/Neo-Darwinism is based on only two pillars: genetic variety produced by mutations that are selected by the process called survival of the fittest. The problem with this foundation is that the vast majority of mutations are near-neutral, harmful, or deleterious. It is a very rare mutation that is clearly beneficial. Furthermore, no selector exists selecting the best organisms as the natural selection theory implies. Survival depends on time, chance, and fortuitous events in short luck. Before any selection can occur, functional genetic variety must first exist. A problem that existed in Darwin's day and still exists today. Sharp also deals with theistic evolution, showing that this worldview is a compromise based on the factious belief that evolution has been scientifically confirmed and is a viable alternative to creationism. Only when Darwinism has been empirically verified do we need to be concerned with explaining how it could be explained in harmony with the Scriptures. Sharp shows that theistic evolution cannot be supported by the Scriptures nor by science. The two worldviews are in irreconcilable conflict. In short, if the facts and science are carefully considered, Darwinism cannot be defended. The only reason it is still around is because it is the worldview of the atheists and secularists and aggressively defended by the courts. Without the legal defense by the courts, it would not continue to thrive. If Darwinism could survive on its own, it would not need the legal defense of organizations such as the National Center for Science Education, which claims it is the only national organization that specializes in defending the teaching of evolution against creationist attacks. Let it defend itself in the court of public opinion instead of relying on lawyers and specious claims that one side of the debate is religion and the other side is science. Both sides of the debate have science elements, and both sides have worldview implications. Something is grievously wrong when both sides of a scientific question are prevented by law from being debated in taxpayer-supported public schools.

Persuaded by the Evidence Dr. Jerry Bergman, Doug Sharp, 2008-08-01 True Stories of Faith Science the Power of a Creator A unique and interesting collection of true stories from Christians each sharing his personal journey to find the biblical truth of a six day creation From scientists in the midst of complex research to youth ministers and more see how each began at a different point and place in his life to question the supposed truth of evolution and how faith and actual evidence led to his embracing a creation based biblical world view In their testimonies you will read about their search for answers often unavailable through their school their church or scientific knowledge and how the discoveries they made have shaped their faith and changed their lives Seeking answers for yourself Discover the powerful truths these individuals now share and find yourself also persuaded by the evidence Contributors include Carl Kerby Curt Sewell Dr Walter T Brown Dr Raymond Damadian Frank Sherwin and more Stories Focus on Powerful testimonies of the concept of a creator Discovering creation truths within scientific careers Understanding the relevance of Genesis to your personal faith Finding answers to life s toughest questions through understanding Genesis Appreciating the powerful influence of creation believers and scholars Features a Founding Fathers of Creationism special section focused on Dr Henry Morris Dr John Whitcomb Dr Andrew Snelling and more Special spotlight Short biography of Dr Mortimer Adler chairman of the board of editors of Encyclopedia Britannica for many years *Lucretius on Creation and Evolution* Gordon Lindsay Campbell, 2003 Lucretius account of the origin of life the origin of species and human prehistory is the longest and most detailed account extant from the ancient world It gives an anti teleological mechanistic theory of zoogony and the origin of species that does away with the need for any divine aid or design in the process and accordingly it has been seen as a forerunner of Darwin s theory of evolution This commentary locates Lucretius in both the ancient and modern contexts and treats Lucretius ideas as very much alive rather than as historical concepts The recent revival of creationism makes this study particularly relevant to contemporary debate and indeed many of the central questions posed by creationists are those Lucretius attempts to answer *Ideology and the Evolution of Vital Institutions* Earl A. Thompson, Charles R. Hickson, 2001-06-30 In this book Thompson and Hickson strongly challenge the standard interpretation of the basis of growth and viability of dominant wealthy nations Briefly efforts of the economically wealthy and the government leaders to increase their wealth and protect it from aggressors internal and external are cast in a new evolutionary light The challenge is to the idea that societies leading intellectual formulators of political and social policy have been helpful Their alternative and persuasive interpretation is that the rise and survival of wealthier nations has been achieved because of an effective democracy The authors explain why an effective democratic state must avoid narrow short sighted rational appearing concessions to a sequence of aggressors In short the Thompson Hickson interpretation of the rise of wealthy dominant nations does not rely on advice of superior intellectual advisors but instead rests on the pragmatic almost ad hoc actions of democratic legislators **The Evolution of Racism** Pat Shipman, 2002 In an intellectually engaging narrative that mixes science and history theories and personalities Pat Shipman

asks the question Can we have legitimate scientific investigations of differences among humans without sounding racist Through the original controversy over evolutionary theory in Darwin s time the corruption of evolutionary theory into eugenics the conflict between laboratory research in genetics and fieldwork in physical anthropology and biology and the continuing controversies over the heritability of intelligence criminal behavior and other traits the book explains both prewar eugenics and postwar taboos on letting the insights of genetics and evolution into the study of humanity **Proceedings of the Biological Society of Washington** ,1923 **The Legislative Manual of the State of Wisconsin** ,1913 *Russia Today* Dorothy Thompson,1929 Pamphlet ,1928 State of Wisconsin Blue Book ,1913 *The Mexican Situation* Moisés Sáenz,Guy Stevens,1929 **The Open Court** Paul Carus,1906 vols 46 47 have special title New Orient Society monograph *Soviet Russia Pictorial* ,1921 **Soviet Russia** ,1922 The National Review, China ,1913 The Missionary Review of the World ,1907
