Parliamentary Papers Great Britain. Parliament. House of Commons,1902 Ofgem's retail market review Great Britain:
Parliament: House of Commons: Energy and Climate Change Committee,2011-07-25 The Energy and Climate Change
Committee believes that energy companies found to have mis sold electricity and gas deals should pay compensation to
consumers The Committee is concerned that customers may be pressured into switching supplier on the door step without
proper consideration of the options when confronted with a vast array of complex tariffs and a hard sell Figures from Ofgem
suggest that up to 40% of consumers who switch do not end up with a better deal The report also raises concerns about the
propensity for energy prices to rise like a rocket and fall like a feather the growing complexity of tariffs and the market
dominance of the Big Six vertically integrated energy companies The MPs single out recent price increases from
ScottishPower for particular criticism Customers who use the least energy will be hit the hardest from August when the
increases are put into effect providing an apparent incentive for higher consumption when energy companies are now
supposed to be helping consumers become energy efficient Electricity and gas tariffs are now so complex that even the
Energy Minister admitted he got confused when trying to switch The Committee is worried that a lot of people are simply
bamboozled by their bills and the vast array of different tariffs on offer The industry should address these problems
immediatly without waiting for Ofgem or the Government to act **Reports of All the Cases Decided by All the**
