Understanding Circumcision George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos, 2001-10-31
Proceedings of the Sixth International Symposium on Genital Integrity Safeguarding Fundamental Human Rights in the 21st Century held December 7-9 2000 in Sydney Australia Morality, Violence, and Ritual Circumcision Na'ama Carlin, 2022-11-30 This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence Intervening in contemporary debates on the Jewish ritual of circumcision it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent An examination of the intersection of violence and morality this book rejects the binary logic on which popular debates on circumcision hinge arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad Engaging with the works of Jacques Derrida the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence the violence of being which resists definition through binary oppositions In so doing the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies As such this volume offers a compelling framework that investigates the relationship between bodies identities ethics and violence and will therefore appeal to scholars of sociology social theory and religion with interests in the sociology of the body ritual and cultural studies *Genital Cutting: Protecting Children from Medical, Cultural, and Religious Infringements* George C. Denniston, Frederick M. Hodges, Marilyn Fayre Milos, 2013-06-03 This volume contains the proceedings of the 10th International Symposium on Circumcision Genital Integrity and Human Rights Authors are international experts in their fields and the book contains the most up to date information on the issue of genital cutting of infants and children from medical legal bioethical and human rights perspectives *Genital Autonomy: Protecting Personal Choice* George C. Denniston, Frederick M. Hodges, Marilyn Fayre Milos, 2010-08-25 Circumcision affects 15.3 million children and young adults annually In terms of gender 13.3 million boys and 2 million girls are subjected to the involuntary removal of part or all of their external sexual organs every year The problem of female circumcision has been addressed on an international level but male circumcision remains a controversial subject that many academics have been reluctant to examine Circumcision is tolerated today because it has been practiced for millennia by a small but vocal minority of religious and ethnic groups however when the practice is examined through the lens of modern legal ethical and human rights advancements no place remains in civilized society for this body altering ritual In *Genital Autonomy: Protecting Personal Choice* international experts address various types of genital modifications the impact of these harmful traditional practices on the child on human rights and on the development of the concept of bodily integrity The papers presented in this volume address these topics from a variety of angles They question and dissect the true motivations of the doctors witch doctors and holy men who promote and profit from

circumcision *Cultural, Religious and Political Contestations* Fethi Mansouri, 2015-05-06 This book examines the foundations of multiculturalism in the context of migr societies and from a multi dimensional perspective The work considers the politics of multiculturalism and focuses on how the discourse of cultural rights and intercultural relations in western societies can and should be accounted for at a philosophical as well as performative level Theoretical perspectives on current debates about cultural diversity religious minorities and minority rights emerge in this volume The book draws our attention to the polarised nature of contemporary multicultural debates through a well synthesised series of empirical case studies that are grounded in solid epistemological foundations and contributed by leading experts from around the world Readers will discover a fresh re examination of prominent multicultural settings such as Canada and Australia but also an emphasis on less examined case studies among multicultural societies as with New Zealand and Italy Authors engage critically and innovatively with the various ethical challenges and policy dilemmas surrounding the management of cultural and religious diversity in our contemporary societies Comparative perspectives and a focus on core questions related to multiculturalism not only at the level of practice but also from historical and philosophical perspectives tie these chapters from different disciplines together This work will appeal to a multi disciplinary audience including scholars of political philosophy sociology religious studies and those with an interest in migration culture and religion in contemporary societies
