Understanding Philosophy Advanced Student Edition:

Historical Explanation Gunnar Schumann, 2023-11-14 This book is concerned with the appropriate form of explanations in historiography and the social sciences It combines action theory and philosophy of historiography and develops a theory of teleological explanations of human actions based on late Wittgensteinian and Ordinary Language Philosophy insights In philosophy of action many philosophers favor causal theories of human action Additionally in current philosophy of historiography the majority view is that historians should explain historical phenomena by their causes This book pushes back against these mainstream views by reviving an anti causal view of explanation of current and past human actions The author argues that disciplines that deal with human actions require a certain form of explanation namely a teleological or intentional explanation This means that past human actions and their results will have to be explained by reasons of agents not by causes Therefore historiography employs a method of explanation which is in stark contrast to the sciences The author thus proposes a Verstehen understanding approach in historiography and the social sciences Historical Explanation will be of interest to scholars and advanced students working in philosophy of action philosophy of history and philosophy of the social sciences

Guide for Students in History and Philosophy of Education Frank Corliss Wegener, 1950 **The Moral Challenge of Dangerous Climate Change** Darrel Moellendorf, 2014-04-14 This book examines the threat that climate change poses to the projects of poverty eradication sustainable development and biodiversity preservation It offers a careful discussion of the values that support these projects and a critical evaluation of the normative bases of climate change policy This book regards climate change policy as a public problem that normative philosophy can shed light on It assumes that the development of policy should be based on values regarding what is important to respect preserve and protect What sort of climate change policy do we owe the poor of the world who are particularly vulnerable to climate change Why should our generation take on the burden of mitigating climate change that is caused in no small part by emissions from people now dead What value is lost when natural species go extinct as they may well do en masse because of climate change This book presents a broad and inclusive discussion of climate change policy relevant to those with interests in public policy development studies environmental studies political theory and moral and political philosophy
